

Implementing standards

BANK OF ENGLAND

JOINT CHARTER | STRENGTH IN PARTNERSHIP

DeLaRue

Working with the Bank of England on Responsible business activities

Through our Joint Charter with the Bank of England, we have identified opportunities for collaboration at our Debden manufacturing facility over the coming 12 months.

These include medium-term plans to share knowledge about sustainability, to work together to engage our people in wellbeing initiatives, and to protect the environment by introducing joint energy reduction plans and waste management strategies.
