Overview

Strong order book gives good visibility of revenue and profitability for H2; expectations for FY18/19 unchanged

Good L4L revenue* growth; profit impacted by a less favourable mix of orders and adverse foreign exchange movements

- Group revenue +9% to £242.0m; Currency revenue +11% to £182.5m
- Adjusted operating profit -31% to £17.0m
- Interim dividend maintained at 8.3p

Solid operational progress

- Banknote print volumes +3%; relationship agreement with Portals De La Rue working well
- Polymer volumes continue to build – BoE trials successfully completed & £20 production underway
- Agreed UK passport preliminary transition timeline – expect to deliver two thirds of the contract’s annualised revenue and profit in FY19/20
- Strong momentum in PA&T – secured two significant GRS contracts; expect the business to double in size within three years

* Like for Like revenue is adjusted for the impact on our results of exiting the paper business. In H1 2018/19 this excludes pass through revenues on paper contracts yet to be novated. In H1 2017/18 this excludes the results of the exited paper business and treats all previous internal revenue of Security Features as sales to an external customer, consistent to the treatment in H1 2018/19

<td><strong>11.4</strong></td>
<td><strong>24.0</strong></td>
</tr>
</tbody>
</table>

- Trade receivables have increased reflecting the timing of shipments in H1
- Inventories are higher due to a build of inventory levels in anticipation of higher H2 orders
- Trade payables have increased mostly driven by the timing of creditor payments at the end of the half year
### Balance sheet – pension and net debt

#### Pension

- **H1 2018/19** special contributions to pension scheme increased to £10.3m (H1 2017/18: £4.2m)

- **FY 2018/19** special contributions will be £20.5m (FY 2017/18: £13.5m)

- Funding plan agreed in June 2016 will remain in place until the conclusion of the new triennial valuation which commenced in April 2018

- Net UK defined benefit pension liability was £77.2m at 29 September 2018 (March 2018: £87.6m)

- Net finance cost on pension liability reduced to £1.1m in H1 (H1 2017/18: £3.2m), reflecting the significant reduction in the net pension liability following the indexation change effective in H2 2017/18

#### Net debt

<table>
<thead>
<tr>
<th></th>

</tr>
</tbody>
</table>

*Adjusted EBIT/net interest and net debt/EBITDA ratio as per covenant definition
Capital allocation priorities

1. **Organic growth investments**
   - capital projects, investment in R&D and sales

2. **Dividend**
   - aim to at least maintain dividend per share in the short to medium term

3. **Mergers and acquisitions**
   - explore value enhancing opportunities

4. **Leverage**
   - not exceeding 1.5x net debt/EBITDA (excluding pension deficit)

Strategy Update
Martin Sutherland

Q&A
Banknote Print

Volumes +3% to 3.6bn

- Supported by flexible production arrangement – working with four outsource partners in H1

Good progress in contract wins – improving revenue visibility

- Secured a 3 year contract with Sveriges Riksbank – producing Swedish Krona outside Sweden for the 1st time

Operational focus

- Portals De La Rue – transition completed
- Strong order book provides full coverage for FY, focus on delivery in H2

Print volumes (bn notes)
Polymer

Continue to build scale

- Volume +10% to 440 tonnes
- BoE trials for new £20 polymer substrate completed, production for initial 520 tonnes over two years underway

Solid progress in gaining market share

- 26 note issuing authorities across 60 denominations (vs. 24 note issuing authorities and 50 denominations in FY2017/18)
- In progress to qualify for major polymer notes issuers
- Building technical service offering, helping SPWs to transition to polymer
Security Features

Strong growth in H1

• Benefiting from new customers as well as higher volumes from existing customers
• Secured 1st customer for holographic thread PureImage™ launched in May 2018

Continue to expand product portfolio through R&D and partnerships

• Focus on maximising synergies by exploiting existing technology platforms
• Launched two new features for ID

PhotocouleurUV™

A print feature that combines the best of security design and the vibrant full colour UV inks to create a life-like 3D effect imagery

MyImage™

A polycarbonate feature jointly developed by De La Rue and its strategic partner Opalux, which enables personalisation of passports and IDs by using standard laser engraving systems
Identity Solutions

Polycarbonate data page design and development for Australia next generation passport with NPA ongoing

Good order intake in international ID

- Qatar ePassport
- New customer – Libya diplomatic passport

UK passport – agreed preliminary transition plan with HMPO

- Service transfer starts from Oct 2019; TUPE (Transfer of Undertakings Protection of Employment) to be agreed
- Expect to deliver around two thirds of annualised contract revenue and profit in FY19/20
- Brexit contingency plan under discussion
Progress in brand protection continues

- Multiple wins - two new contracts for pharmaceutical products
- Engaged in multiple contract negotiations in vaping and high end consumer electronics industries

Significant wins in GRS in last 12 months provide good foundation and references for expansion

- UAE tobacco tax stamp scheme (£25m over 5 years) won in May – on track for rolling out in early 2019
- Secured two strategically important tax stamp contracts, providing full track and trace solutions
- Expect strong growth in tax stamp market driven by regulations

Expect PA&T business to double within three years
Agenda

Strategy Update
Martin Sutherland

Q&A
Where we are – context for our business today

Continuing to deliver on our strategy – we are a more streamlined business post CPS and paper disposals

UK passport contract – a setback for our ID business but we are addressing it

Change in market dynamics – regulatory developments, industry consolidation, and technology advancement present risks as well as opportunities
Where are we – a strong platform to build on

Leading position in our chosen markets with high barriers to entry

#1 Banknote printing
#3 Security features
#2 Polymer substrate
#2 Tax stamp solutions

Established innovator and world class security design capability

- 123 patents granted & 127 patents filed in 4 years
- 14 international design awards in 10 years; designed 36% of total denominations in circulation

Respected and trusted brand with longstanding customer relationships

2/3 of our customers have Long Term Agreements or relationships

Long term growth potential

In growing markets (CAGR 2017-22):
- Currency +4%
- Personal ID +6%
- Brand protection +9%
- Tax stamps +12%

Source: The Future of Global Security Printing to 2022, Smithers Pira.
A clear strategy to deliver shareholder value

**Optimise & Flex**
- 65% of Group revenue*
- 50% of Group profit*

To become a world class security printing manufacturer
- Optimising manufacturing
- Creating operational efficiency and flexibility

**Invest & Build**
- 35% of Group revenue*
- 50% of Group profit*

**Drive organic growth**
- Redirecting growth in identity business to security features and components
- Investing in R&D and sales
- Accelerating growth through M&A

*FY17/18 figures
Invest & Build – Identity Solutions
Current situation

- UK passport contract ends in FY19/20
- International ID continues to grow strongly

What we currently offer

System & Service
- Software solutions
- Integration
- Support services

Identity documents
- Printed books
- ID cards
- Security components i.e. laminates & polycarbonate
- Intellectual property

Market trends
- Solutions market has consolidated; now dominated by two major players
- Bespoke solutions require ongoing investment

Our capability
- Existing software solution – DLR Identify™
- Lacking broader system components

Identity market grows at c6% p.a.
- Fragmented market with dozens of pure play and integrated suppliers
- Polycarbonate data page driven by e-Passport transition
- Value of personal ID remains in security components

Material science technology platforms
- Product and process IP
- Polycarbonate line
Invest & Build – Identity Solutions
Refocus IDS from solutions sales to higher margin security features & components

Strategy to date
Target end-to-end solution sales by leveraging existing relationships and build up components and security features

New priority
Focus on higher margin security features and components such as polycarbonate data page where we can differentiate

Going forward
Assessing all options for the prime system integration business to maximise shareholder value

c165m passports issued in 2017, growing at 8% a year. The addressable market for security components includes the larger SPW market

Addressable market for components

- SPWs 75%
- Commercial 25%

SPW: De La Rue, Gemalto, CBN, IDEMEA, Veridos, Other

Addressable market for components

- SPWs 75%
- Commercial 25%

SPW: De La Rue, Gemalto, CBN, IDEMEA, Veridos, Other

Going forward

</tbody>
</table>

### Product traceability
- Track and trace solutions capturing and reporting the origin and movements of products by unique identifier (such as QR codes or serial number through the supply chain)
- **Supply chain focus**
  - **Software enabled**

### Product authentication
- Physical labels containing multi-layered overt and covert features such as hologram and UV inks to help authorities and consumers to confirm the authenticity of the products
- **Product focus**
  - **Material science enabled**

---

**Tamper evidence**
- Tamper evident technology including seals, marking, film wrappers, foils, that are integrated into product packaging to reveal any interference with the contents
- **Tamper evidence 34%**

**Product traceability**
- **Track & trace 37%**

**Product authentication**
- **Product authentication 26%**

**Anti-theft 3%**

$2.7bn in 2017

Invest & Build – Product Authentication & Traceability
Well positioned in both government and commercial markets

Government
- Tobacco products
- Alcohol drinks
- Sugary and energy drinks

Tax stamps
- Print features
- Information code
- Tracking code

DLR Certify™
- Order management
- Serialisation
- Mobile app for enforcement verification

Enterprise
- Consumer electronics
- Luxury goods
- Wine and spirits
- Industrial products

Secure labels
- Print security
- Easy to recognise features
- Design aligned with brand
- Consumer engagement

Traceology®
- Order management
- Serialisation
- Mobile app
- Consumer verification

End market
Authentication
Traceability

© De La Rue plc
Summary

1. Good revenue growth across all segments
2. Significant wins in Currency and PA&T underpin future revenue and give us confidence of delivering our strategic goals
3. Strategy reaffirmed
4. Refined priorities for identity business

Outlook:
Strong order book provides good visibility of revenue and profitability for H2, FY18/19 expectations unchanged

* Before exceptional items and amortisation of acquired intangible assets. This is a non-IFRS measure. See slide 35 for more details.
Non-IFRS measures

De La Rue plc publishes certain additional information in a non-statutory format in order to provide readers with an increased insight into the underlying performance of the business and use these internally for assessing the business performance. The Directors are of the opinion that these measures give a better understanding of the underlying performance of the business. Amortisation of acquired intangible assets is a non-cash item and by excluding this from the adjusted operating profit metrics this is deemed to be a more meaningful metric of the contribution from the underlying business. The measures the Group uses along with appropriate reconciliations where applicable are shown below.

**Adjusted operating profit**

Adjusted operating profit represents earnings from continuing operations adjusted to exclude exceptional items and amortisation of acquired intangible assets.

<table>
<thead>
<tr>
<th></th>
<th>H1 2018/19 £m</th>
<th>H1 2017/18 £m</th>

<td>10.0</td>
<td>13.2</td>
</tr>
<tr>
<td>Adjusted EBITDA</td>
<td>27.0</td>
<td>39.8</td>
</tr>
</tbody>
</table>

**Excluding paper figures**

Figures reported on the “excluding paper” basis have been adjusted to exclude revenue from non-novated contracts in H1 2018/19. In H1 2017/18 “excluding paper” figures exclude the results of the paper business. In addition Security Feature sales, which would have previously been treated as internal, have been added back to present the comparative numbers in 2017/18 on a basis consistent with the IFRS accounting treatment applied in H1 2018/19.
## Non-IFRS measures

Impact of sale of the paper business

Income Statement (relating to sale of finished banknotes)

From 1 April 2018 we no longer recognise revenue and profits on the sale of paper, within our Currency (banknote paper) and both our IDS and PA&T (security paper) businesses. We now recognise revenues on the sale of Security Features to 3rd parties in our results.

The excluding paper analysis with these results are all on a like-for-like basis taking these factors into account.

Balance Sheet

All assets relating to paper business, including working capital, were disposed of on the sale on 31 March 2018.

Different working capital and asset base going forwards – one strategic rationale for sale of the paper business was to become less capital intensive.

We have seen a one-off impact to our cash flows as we have transitioned to and embedded the workings of the new relationship agreement with Portals De La Rue. Underlying, and ongoing, we will reflect an improved working capital cash movement under the terms of this relationship agreement.
Thank you
