

ExemptMeNow is the only fully-automated, online compliance software that focuses on providing incorporation, exemption, and tax-exempt reinstatement support exclusively for nonprofit organizations. After years of directly helping nonprofits manage their compliance needs, we developed our innovative online platform to make it easier for you to get and keep your organization in line with IRS nonprofit compliance requirements.

At ExemptMeNow, our mission is to simplify the creation and maintenance of nonprofit organizations. We do this by radically reducing the time needed to complete required tasks, while ensuring those efforts are cost-effective as well. Our services include: incorporation, exemption, and tax-exempt reinstatement. We also offer nonprofit compliance maintenance, registered agent services and full service support services

That's why ExemptMeNow's automated filing software includes educational guidance, insight, and information - all provided continuously throughout the process. At ExemptMeNow, we serve you so that you can get back to the business of serving others.

For more information on our programs and services, please visit our website at [www.exemptmenow.com](http://www.exemptmenow.com).
