**DP Solutions Recognized for Excellence in Managed IT Services
Company Named to CRN's 2016 Managed Service Provider (MSP) 500 List in Elite 150 Category**

Columbia, MD, February 16, 2016 – DP Solutions, a leading Managed IT Services provider serving the Mid- Atlantic region, announced today that CRN[®], a brand of The Channel Company, has named the company to its 2016 Managed Service Provider (MSP) 500 list in the Elite 150 category. This annual list recognizes North American solution providers with cutting-edge approaches to delivering managed services. Their top-notch offerings help companies navigate the complex and ever-changing landscape of IT, improve operational efficiencies, and maximize their return on IT investments.

In today's fast-paced business environments, MSPs play an important role in helping companies leverage new technologies without straining their budgets or losing focus on their core business. CRN's MSP 500 list shines a light on the most forward-thinking and innovative of these key organizations.

The list is divided into three categories: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on-premise and off-premise services; and the MSP Hosting Service Provider 100, recognizing MSPs focused primarily on off-premise, cloud-based services.

DP Solutions' managed IT services offering, called Confidence Plus, provides organizations with 24x7 network monitoring and management, implementation, onsite support and a 24x7 tech service desk to ensure clients' networks are problem-free and remain up-to-date to ensure the highest levels of productivity and minimize downtime. With world-class data centers located across the United States, DP Solutions also offers cloud business services, managed backup & IT disaster recovery, mobile device management and virtual CIO services.

"MSPs meet a critical need in the IT market, providing customized, turnkey services that allow for predictable operational expenses, effective control of expenditures, precise allocation of limited resources and convenient access to on-demand and pay-as-you-go technology," said Robert Faletra, CEO, The Channel Company. "We congratulate the service providers of the MSP 500, who continually reinvent themselves to successfully meet their customers' changing needs, helping businesses get the most out of their IT investments and sharpen their competitive edge."

"DP Solutions is an IT consulting firm that combines the depth of service of a large corporation with the quick reaction time and personal touch of a small business in order to provide the best possible support for our Clients' wide array of needs," said Simon Tutt, President and CEO of DP Solutions. "We are truly in the ideal place to provide the very best solutions without compromise for our clients."

The MSP 500 list will be featured in the February 2016 issue of CRN and online at www.CRN.com/msp500.
