Our ABCs

by the Sourcegraph Team

For Ages 0000 to 1000+

sourcegraph

For all children at home that wonder what their techie parents do all day, night, and some weekends, too.

© Copyright 2020 Sourcegraph

A

is for

App

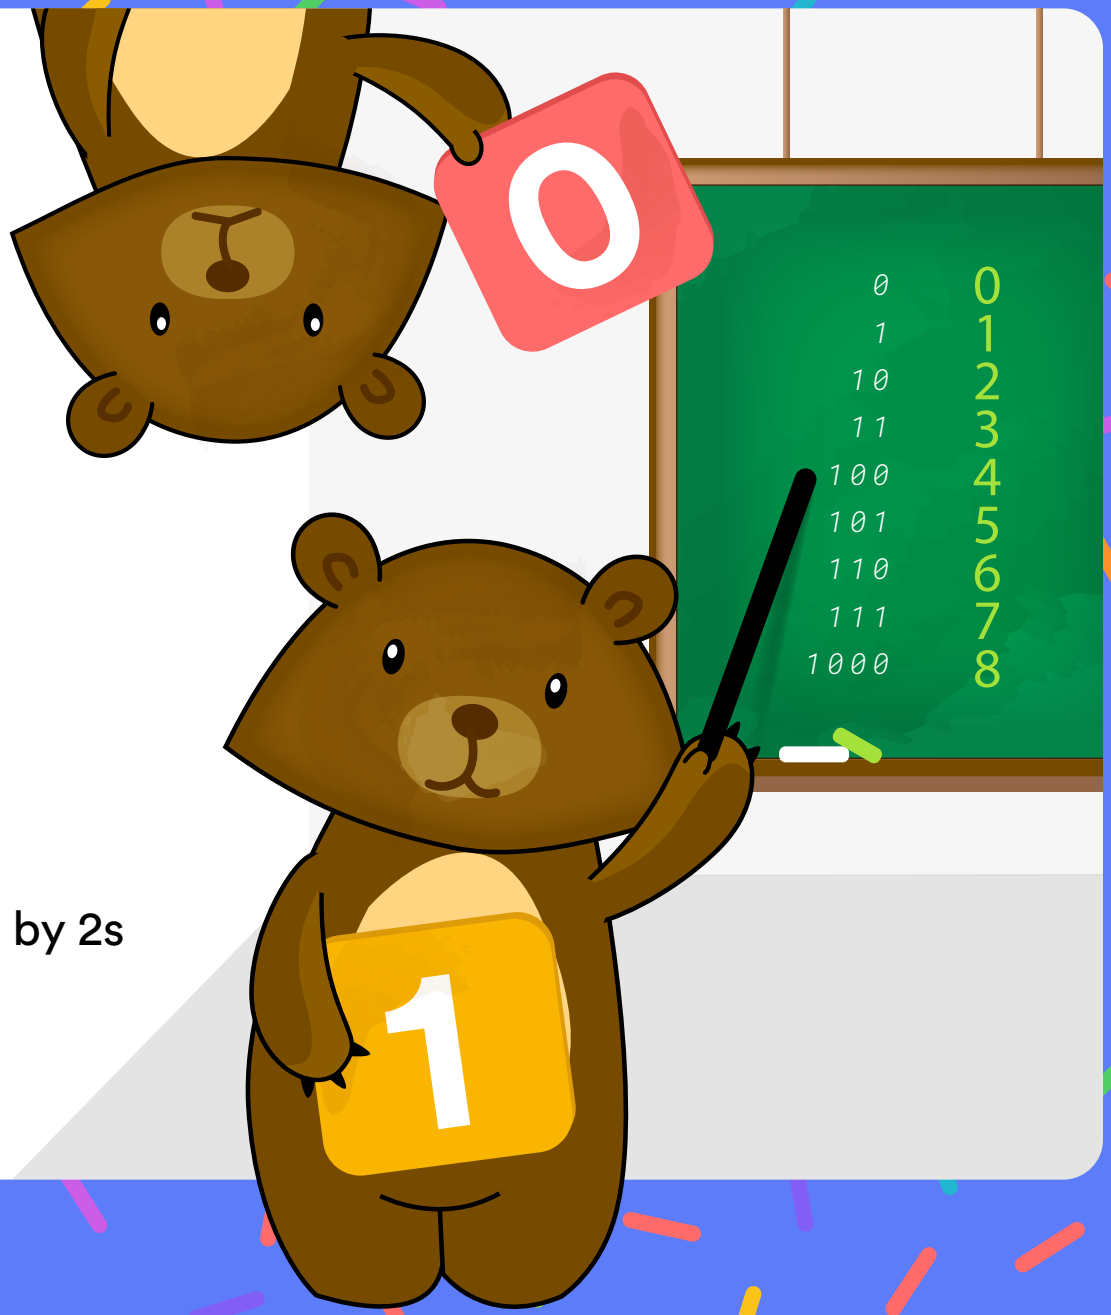
a program you use

B

is for

Binary

how to count by 2s

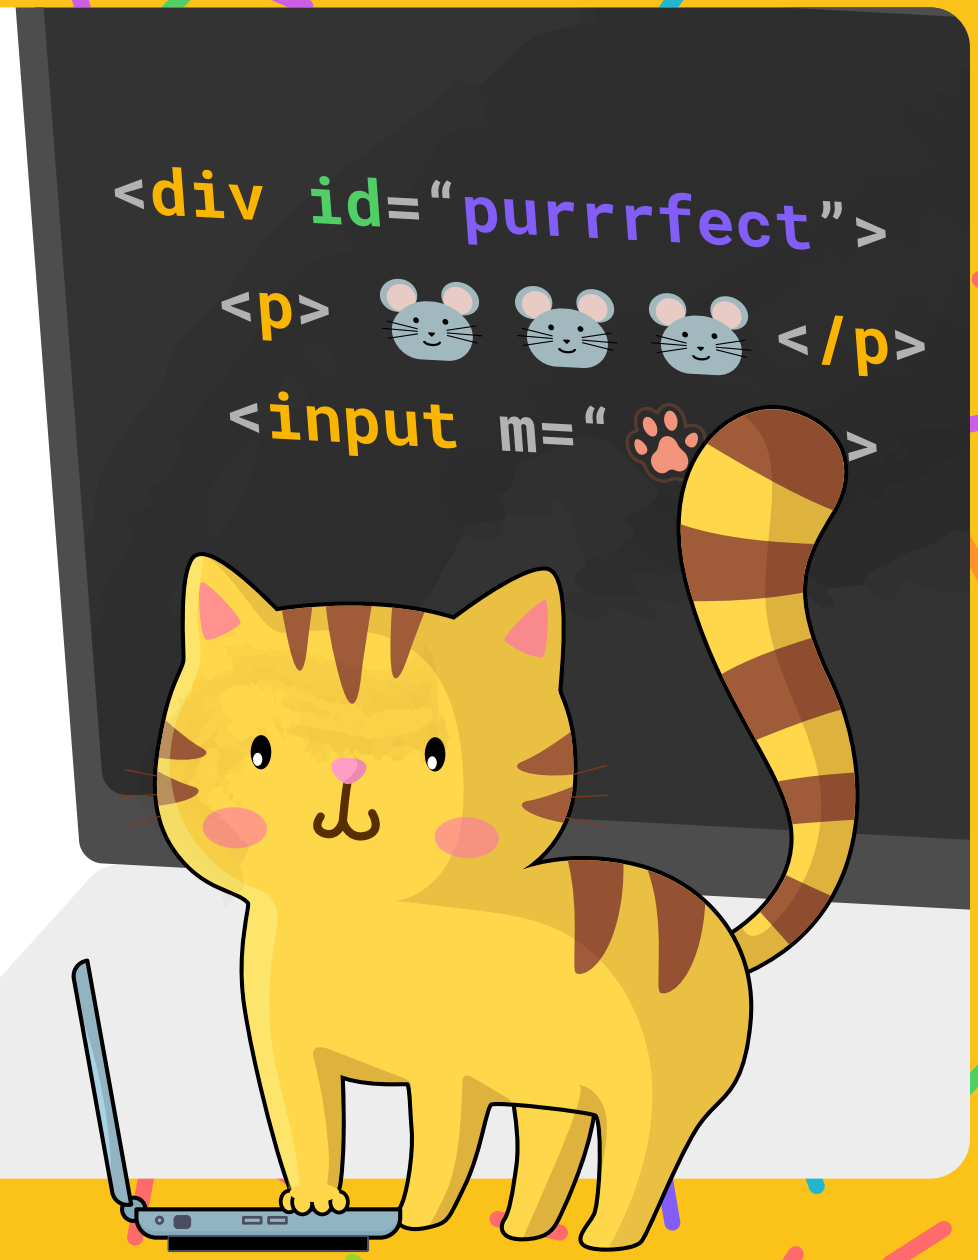


C

is for

Code

any programming
language will do

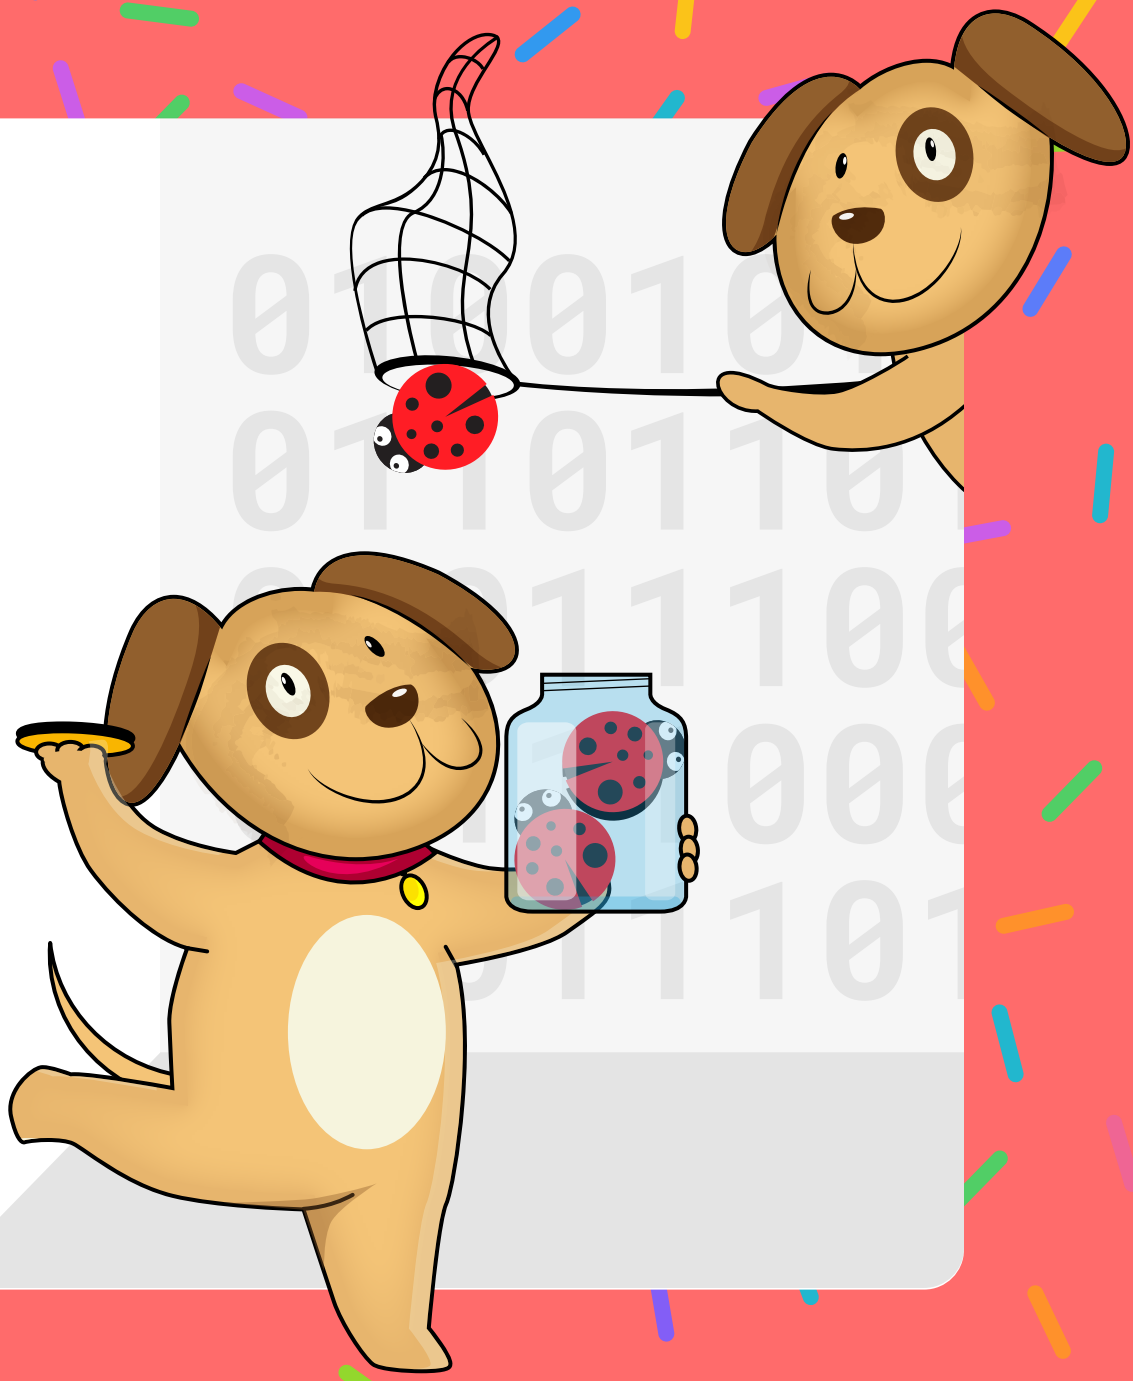


D

is for

Debug

to find an issue
or two



E
is for
Editor
here you write
your tech stuff
<Icon>
<Widget
</>

F

is for

File

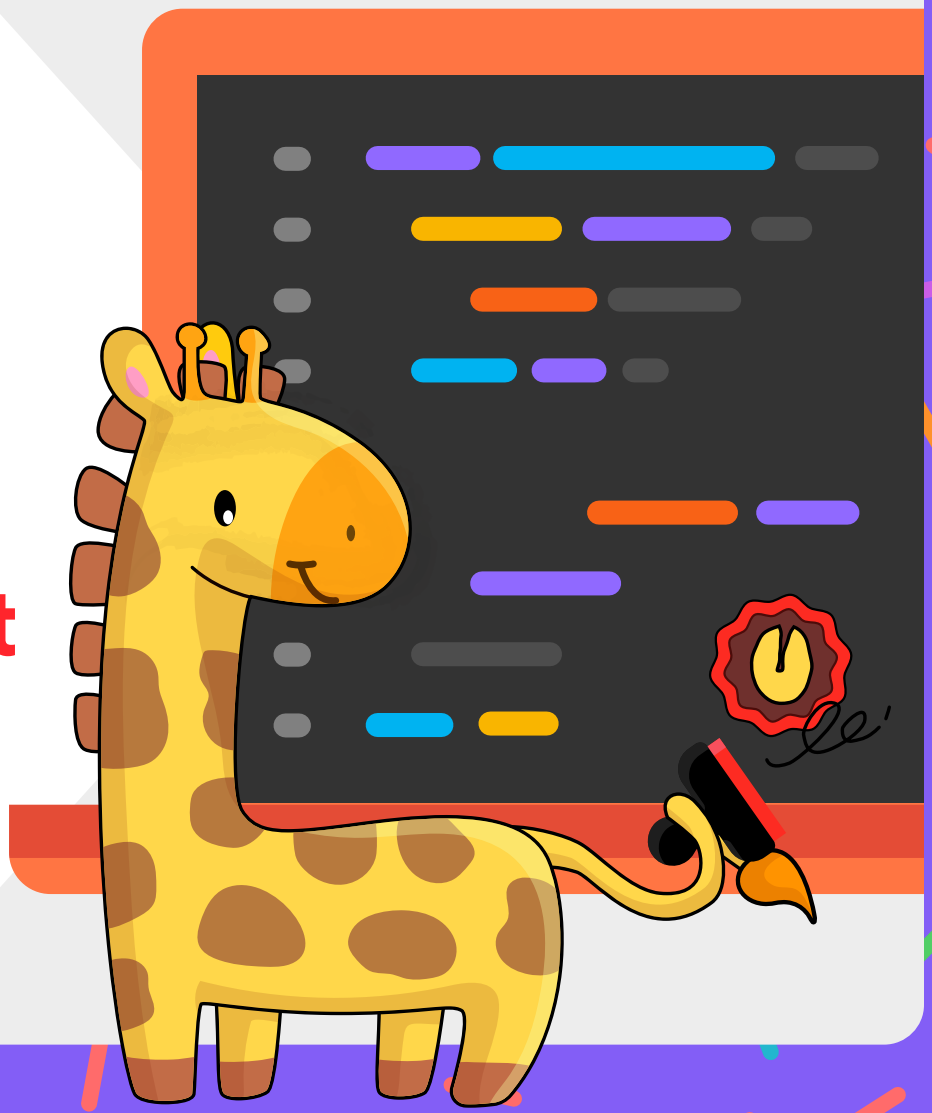
save it when you've written enough

G

is for

Git commit

now your future
is bright



H

is for

Hello, World

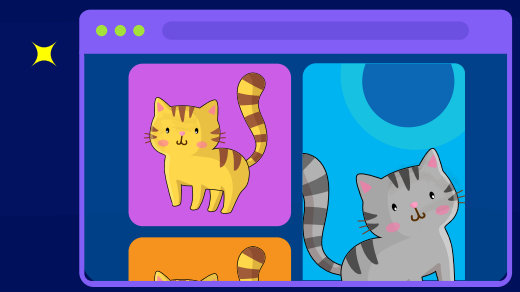
your first code
to write

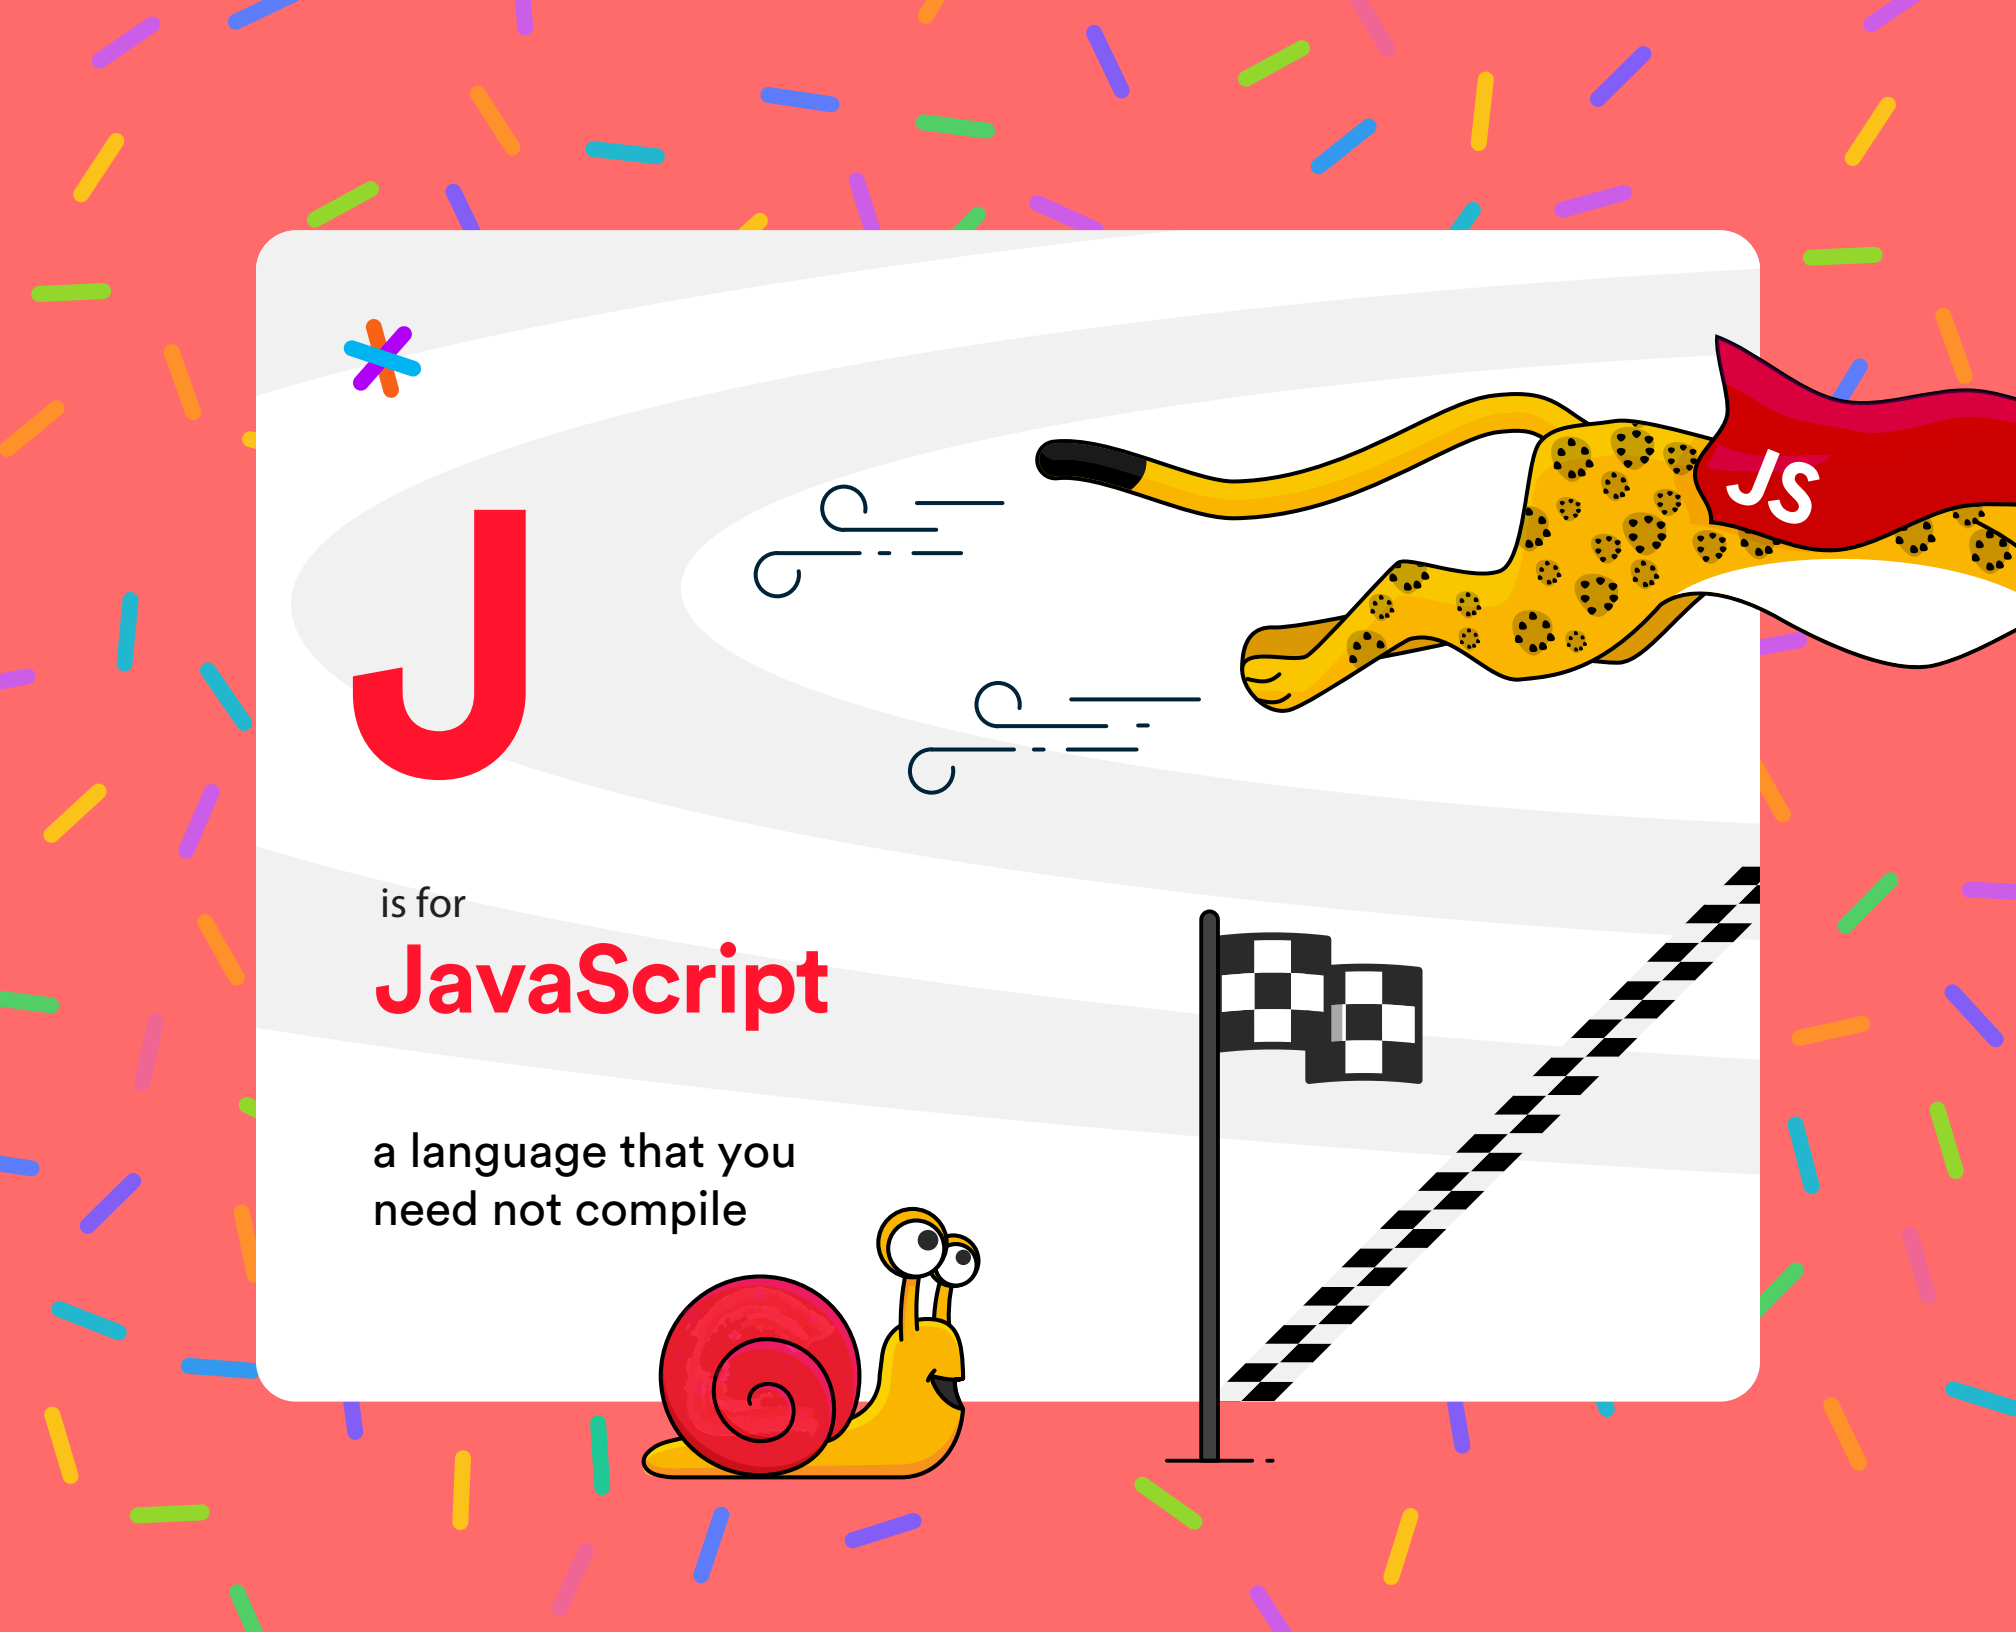
I

is for

Internet

where cat pics
make you smile





J
is for
JavaScript
a language that you
need not compile
JS

K

is for

Kubernetes

makes deploying apps
less of a chore

L

is for

Logging

tracking events,
errors and more

M

is for

Memory

so computers
don't forget

N
is for
Null
for values not
known yet

O

is for

Open Source

for everyone
to share

is for

Protocol

so everyone
plays fair

Q
is for
Query
like “What is
the version?”

R

is for

Recursion

is for recursion, is for recursion

S

is for

sourcegraph

when otherwise
you're lost

T

is for

Tests

to decrease
your cost

U

is for

URL

each page
has its own

V
is for
Vim
where code
can be shown
import (
"errors"
"net/http"
"path"
"regexp"
)
var (
26
27
28
29
30
31
32
33
34

W

is for

Work

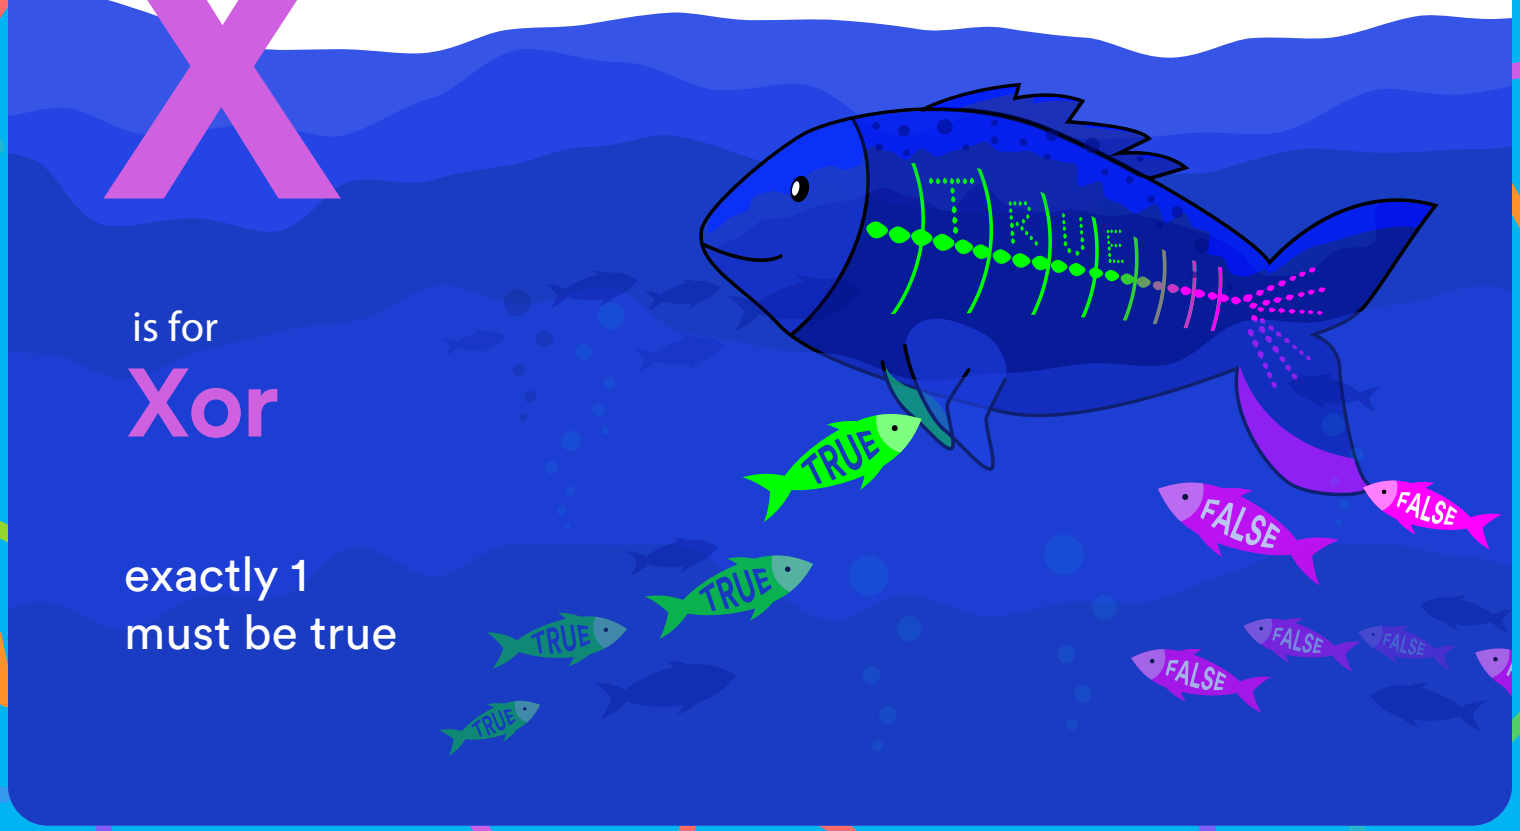
something grown-ups
have to do

X

is for

Xor

exactly 1
must be true



Y

is for

Y2K

which didn't
end in doom

Z

is for

Zoom

all your friends
in one room
