

When it can't be replaced...

TRUST CRYOPORT

When successful in vitro fertilization (IVF) outcomes depend on the safe transportation of precious biological materials, Cryoport is the partner you can trust.

Cryoport provides advanced IVF logistics solutions for more than 400 clinics around the world. The combination of our Cryoport Express® liquid nitrogen dry vapor shippers, the SmartPak II™ condition monitoring system and our Cryoportal™ logistics management platform enables clinics and medical offices to ship irreplaceable materials confidently, both domestically and internationally. With the industry's most advanced logistics technology and end-to-end expert support, quality, safety and stability are ensured from start to finish.

Cryoport's patient-centric approach to IVF is built around a genuine understanding of how invaluable your patients' cargo truly is. Cryoport maintains a one patient, one shipment policy to minimize logistics and handling risks to the samples. When you need peace of mind that the materials will arrive at the destination safely and securely, Trust Cryoport.

CRYOPORT SERVICES

- Cold chain shipping and tracking
- Storage and equipment leasing
- Logistics consulting – cold chain risk assessment, lane qualification and process flow consulting

WHY CHOOSE CRYOPORT FOR YOUR COLD CHAIN LOGISTICS

End-to-End Solutions

From point of origin to destination, Cryoport provides easy storage, ordering, fulfillment, shipping, continuous tracking and monitoring, documentation assistance and 24/7 customer support for your cold chain logistics needs.

Intelligent Logistics

Integrated global storage, monitoring and shipping made simple. Monitoring and shipping temperature-sensitive materials around the world has never been easier.

Complete Compliance

No matter what you're shipping or where it's going, have confidence that your materials are being stored and shipped ethically and in full compliance with all applicable regulations. Cryoport's team of experts will guide you through customs and can manage all documentation.

Steadfast Protection

Navigate global cold chain logistics with scientifically enhanced Cryoport Express® liquid nitrogen dry vapor dewars, which maintain -150°C for up to 10 days, and dedicated 24/7 expert care.

Nonstop Monitoring

Complete visibility with the Cryoport™ logistics management system and SmartPak II™ condition monitoring system. Never lose sight of your sample or shipment with round-the-clock support and access to accurate and up-to-the-minute data in a single data stream.

Risk Mitigation

Your choice of a logistics partner impacts your materials, your data, your operations and, most importantly, your outcome. Our solutions are built to maintain the integrity of your materials and data throughout transit with fully validated Cryoport Express® dry vapor shippers and a team of experts who proactively monitor, support and find solutions for any potential challenges.

When it can't be replaced,
TRUST CRYOPORT

ABOUT CRYOPORT

Cryoport is the premier provider of cold chain logistics solutions to the life sciences industry through our purpose-built proprietary packaging, information technology and specialized cold chain logistics expertise. We provide industry-leading shipping and storage logistics solutions for biologic materials, such as immunotherapies, stem cells, CAR T-cells and reproductive cells, for biopharmaceutical, IVF and animal health organizations around the world.
