

LAB MOVES

Your complete laboratory relocation solution

Cryoport is your end-to-end cold chain logistics solution when you need to move an entire sample store from one lab facility to another, anywhere in the world. Using redundant temperature-controlled shipping containers and environmentally controlled trucks, Cryoport and our partners ensure the integrity of your frozen specimens, samples and equipment including cryogenic chambers, scientific refrigerators and other biological storage equipment. Whether you're moving across town, across the country or across an ocean, you can trust Cryoport for your large-scale cold chain shipping needs.

CRYOPORT SERVICES

- Cold chain shipping and tracking
- Storage and equipment leasing
- Logistics consulting – cold chain risk assessment, lane qualification and process flow consulting

WHY CHOOSE CRYOPORT FOR YOUR LAB MOVES

End-to-End Solutions

From point of origin to destination, Cryoport provides easy storage, ordering, fulfillment, shipping, continuous tracking and monitoring, documentation assistance and 24/7 customer support for your cold chain logistics needs.

Intelligent Logistics

Integrated global storage, monitoring and shipping made simple. Monitoring and shipping temperature-sensitive materials around the world has never been easier.

Complete Compliance

No matter what you're shipping or where it's going, have confidence that your materials are being stored and shipped ethically and in full compliance with all applicable regulations. Cryoport's team of experts will guide you through customs and can manage all documentation.

Steadfast Protection

Navigate global cold chain logistics with scientifically enhanced Cryoport Express® liquid nitrogen dry vapor dewars, which maintain -150°C for up to 10 days, and dedicated 24/7 expert care.

Nonstop Monitoring

Complete visibility with the Cryoport™ logistics management system and SmartPak II™ condition monitoring system. Never lose sight of your sample or shipment with round-the-clock support and access to accurate and up-to-the-minute data in a single data stream.

Risk Mitigation

Your choice of a logistics partner impacts your materials, your data, your operations and, most importantly, your outcome. Our solutions are built to maintain the integrity of your materials and data throughout transit with fully validated Cryoport Express® dry vapor shippers and a team of experts who proactively monitor, support and find solutions for any potential challenges.

When there's no room for error,
TRUST CRYOPORT

ABOUT CRYOPORT

Cryoport is the premier provider of cold chain logistics solutions to the life sciences industry through our purpose-built proprietary packaging, information technology and specialized cold chain logistics expertise. We provide industry-leading shipping and storage logistics solutions for biologic materials, such as immunotherapies, stem cells, CAR T-cells and reproductive cells, for biopharmaceutical, IVF and animal health organizations around the world.
