Bonding Enhancement

Enhance Your Growth

Participation in the Bold Concepts' **"Enhanced Bonding Program"** allows your business to maximize growth potential by lowering the barriers to a substantial increase in your bonding program. Many new clients experience two and three-fold increases in their overall bonding program once qualified.

Our Bonding Program leverages:

- 30+ year proven construction system
- Decades long relationship with one of the nation's largest construction bonding company
- Ability to co-Indemnify bonds

Because the surety relationship is so critically important to the growth and development of your company, we maintain a close relationship with one of the nation's largest bonding companies. Bold Concepts helps you navigate the key questions the bonding company needs to know about your company, thus ensuring that they feel confident in your integrity and financial capabilities.

Bold Concepts schedules regular meetings with the bonding company on your behalf to provide them a flow of clear, well-presented financial information and job status reports. This includes providing updates on your company, such as shifts in ownership or top management and forays into new markets or specialties.

Bold Concepts' Bonding Program helps course-correct difficult projects to minimize the need to alert the bonding company of impending problems in order to keep your bonds secure.

Preparing your company for enhanced bonding success is complicated — like the construction industry itself — and it requires a strong team. Bold Concepts provides you access to in-house accountants, estimators, project managers, sales staff and on-call lawyers who know the industry inside and out.

Bold Concepts has extensive experience in helping construction companies increase their bonding capacity. We can work smoothly with your existing team or help you build a new one. If you'd like to discuss the bonding environment and review your own situation, please contact us.
