**Instructions for folding unprinted container lids**  
 To form the lid - hold the lid so that the inside (the brown) is facing you.

<p><b>7)</b></p>  <p>Start by folding the pre-scored flaps toward the inside.</p>	<p><b>8)</b></p>  <p>Fold the two side flaps up.</p>	<p><b>9)</b></p>  <p>Fold the two small flaps to the inside.</p>
<p><b>10)</b></p>  <p>Fold the creased flap that is outside the two folded in flaps over the two smaller flaps and fit tabs into slots.</p> 	<p><b>11)</b></p>  <p>Fold the opposite side of the lid in the same way. There is a large flap on this side that when folded in over the two smaller flaps creates a flap that is perpendicular to the lid top.</p> 	<p><b>12)</b></p>  <p>When the lid is placed on the box, the large flap will lay along side the box</p>  <p>Pull open the lid and the container is ready to be used.</p>

When you have finished the collection, take the lid off the box; place the flap inside the lid and place the lid back on the box to securely close for disposal.
