

Clean Protection for Tablets and Electronics

INSTRUCTIONS FOR USE

Smartphone Covers

Step 1:
Insert tablet into cover with device facing tape tab.

Step 2:
Remove release liner from tape.

Step 3:
Fold tab over device, pull taut, and smooth down tape.

TIP: Pulling tab taut will help remove wrinkles from cover and improve touch screen performance.

CAUTIONS:

- 1) NOT STERILE. Not for use in a sterile field.
 - 2) Do not reuse. Change when cover becomes contaminated.
- WARNING:** Cover limits air flow to the device. Some devices require significant air flow for cooling. Verify that device will not overheat while in Stay-Clean cover before extended use.
