TECHNOLOGIES  
MEETING

## CLOUD

### Collaborate anywhere without installation

i3MEETINGHUB allows you to fully enjoy the benefits from cloud, an online platform which grants you seamless, instant connection to a shared whiteboard with any mobile device from any location, in the meeting room or across the globe.

### Personal storage

Cloud gives you easy access to your personal library where you can save all of your presentations.

### Secured connection

While using i3MEETINGHUB, your files and data are safe and can be shared at your own discretion thanks to a secured connection (HTTPS).

## LIBRARY

### Save time with templates

i3MEETINGHUB does not require separate components or creative drawing skills, as templates for drawing tables and graphs, as well as commonly used symbols, are already included in the library. This leads to significant savings in terms of time.

### Personal storage

No more fiddling with USB keys and server access. All your images, videos, sounds and web links are easy to find in your personal space.

## INTEGRATE

### **Dropbox, Evernote**

Do you prefer to store your files into your shared Dropbox or Evernote? No problem, i3MEETINGHUB integrates perfectly with your existing setup (*Evernote coming soon*).

### **Hardware**

i3MEETINGHUB integrates seamlessly with your existing touch enabled hardware solutions and devices. If you are in need of a hardware solution, please do not hesitate to discover our range of i3 solutions.

## FOR EVERYONE

### **Simple user interface**

i3MEETINGHUB integrates the fundamental features from analog traditional presentation tools into an intuitive user interface without losing their functionalities.

### **No technical expertise**

i3MEETINGHUB's intuitive user interface does not require any technical expertise, which makes it accessible for everyone. Its instant access and low learning curve ensures everyone can fully focus on their work.

### **What is best for your environment**

Let us guide you through all the jargon and figure out what is best for your business. Step by step we will find the ideal solution for your meeting space.

# FEATURES

## MEETING

i3MEETINGHUB is the best solution for all your meetings, regardless of their purposes.

### COLLABORATE

Are you looking for effective and innovative ways to collaborate with several participants on a shared screen in a local or remote meeting environment? i3 corporate solutions allow local and remote participants to interact with any type of content anywhere in the world and from any mobile device. Our range of interactive whiteboards, touch displays and projectors with multi-touch technology allow multiple users to annotate simultaneously to improve collaboration. Combine i3's multi-touch hardware solutions with i3MEETINGHUB presentation software for seamless, instant access to a shared whiteboard with any mobile device from any location.

### BRAINSTORM

A brainstorming session plays a crucial role in a meeting environment as a means to find answers to specific questions or issues. The purpose of a brainstorming session is to rapidly generate multiple ideas on the particular topic or issue. The focus lies on quantity, as the underlying idea of the process is that among the multitude of ideas, there will most likely be a useful one. Therefore, the ideal brainstorm platform is available at any time and allows users to connect instantly. The writing surface needs to be infinite and should allow multiple users to make annotations simultaneously. All participants must be able to connect from anywhere and from

any device. By integrating all of these features, i3 solutions aim at stimulating the flow of ideas.

### PRESENT

i3 defines the ideal solution to share presentations in a meeting environment as a userfriendly plug-and-play device. The presenter connects his device instantly to the screen and does not require technical knowledge or training. i3 solutions boost interactivity in the meeting room and actively engage participants by enabling them to make live annotations, save changes and share the most recent version of the presentation instantly. i3 changes the way you give presentations.

### i3MEETINGHUB is part of a total solution, other MEETING solutions:

#### i3TOUCH

Interactive touch displays

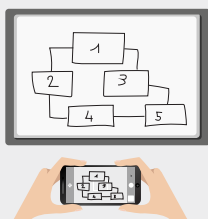

#### i3BOARD

Interactive whiteboard systems

#### i3SYNC

Wireless presentation tool

#### i3SNAP

Turn your tablet or smartphone into a whiteboard scanner

#### i3ANNOTATE

Annotate over any application, file, website, ...

#### i3COMPUTER

Compact mini pc for professional use (24/7)

## FAST RESPONSE

Accelerate decisionmaking in your team significantly by collaborating with multiple users on the same whiteboard, regardless of their location. i3 solutions allow participants to annotate over documents and presentations on the touchscreen or simply connect their own device to the screen. Everyone can share their resources instantly and interact with them in real time. i3 solutions eliminate the struggle with cables and USB keys, as notes can be instantly saved and shared with everyone.

Add mobility and flexibility to your meeting room by mounting i3 solutions on a wall or on a mobile floorstand. They allow you to freely move the board or display around in the room or into different workspaces. You can alternate between a horizontal or a vertical surface and adjust the height of the mount easily with the push of a button.

### i3MEETINGHUB is part of a total solution, other FAST RESPONSE solutions:

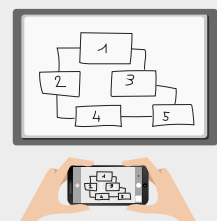

#### **i3TOUCH**

# TRAINING

Increase your training productivity by engaging and involving all participants. Regardless of your training style or the training environment, i3 provides you with the right tools to make your training sessions memorable.

i3 solutions are easy-to-use and offer solely the essentials, which means every participant can start practicing immediately. Our solutions allow you to organize an interactive training session with all participants regardless of their location, whether it is in the meeting room or across the globe.

Your notes are instantly saved and the presentation can be instantly shared with all participants, which saves you a lot of time and allows you to fully concentrate on the session.

## i3MEETINGHUB is part of a total solution, other TRAINING solutions:

## TECHNOLOGIES

i3-Technologies is a global company. Every day we gain new impressions about the accelerators behind the shift that is happening in learning and meeting environments. This shift influences the way we at i3-Technologies think about furniture and technology. And ultimately it drives change and innovation in our designs and the way we envision our interactive, integrated and inspiring solutions.

In our hyper-connected world, it is only logical that meetings are increasingly taking place on a global level. As a consequence, traditional meetings need to be transformed into a global hub for interaction and connectivity, in which both cyberspace, computing devices, and traditional and digital meeting tools blend perfectly to enable the optimal interaction experience.

When crafting tools and products, or delivering know-how to the customer, i3-Technologies integrates 3 principles as the fundament to enable the optimal meeting and learning environment: interactivity, integration and inspiration. Above this, we cherish 3 design principles to ensure maximal satisfaction of the customer and minimal impact on the environment: User-based Design, Universal Design for Learning and Cradle-to-Cradle.

At i3-Technologies we aim to stay in touch with our customers' expectations and objectives by offering fully integrated technology solutions for any learning or meeting environment. We strive for a clear communication between people and a smooth synergy with the i3 products.
