# RESIDENTIAL PEBBLES

**LOCATION:** Lee-On-Solent, Hampshire **BACKGROUND:** Luxury seafront apartments

This was a luxury development with sea views to the Isle of Wight. Denleigh worked closely with the Interior Designer to select ironmongery to compliment the stunning character of the project.

Samples of a number of premium products were provided for the client to see and feel to help in the selection process. Denleigh went on to prepare an ironmongery schedule based on the preferred options.

The products were delivered in apartment consignments at the request of the site manager.

As a result of working closely with the Developer for a number of years, staff at Denleigh were personally invited to the fanfare opening celebration.

**Customer service is an essential component of the Denleigh philosophy. A Denleigh team member worked closely with the client throughout the design, selection and fit-out stages.**
