

## **PARKITECT PUMPTRACK URBAN STUDY**

### **SIRNACH, SWITZERLAND, 19.03.2017 - 26.03.2017**

**Scope:** in order to measure the community usage of a PARKITECT Modular Pumptrack in close proximity to residential buildings, a QUADRAGON was installed in a community of just over 6800 inhabitants for a 7 day period.

Address: Grünaustrasse 15, 8370 Sirnach, Switzerland,  
Google MAP: <https://www.google.com/maps/dir/47.4639601,8.9968684//@47.4634112,8.9953436,432m/data=!3m1!1e3>

The usage was tracked using "Eco Counter" <http://www.eco-compteur.com>

The study produced the following data:

- Sum of all laps: 47'728
- Approximate total distance ridden on the track: 2'291Km
- Total daily average number of laps: 5'966
- Weekday average number of laps: 7'070
- Weekend average number of laps: 4'126
- Top days of usage during the analysis period:
  1. Tuesday 21.03: 8'599 laps
  2. Thursday 23.03: 7'426 laps
  3. Wednesday 22.03: 6'521 laps
