Fabrics and colours – Trend 2016 | 01

Our Scandinavian trend textile palettes New Folk & Sense present two colour moods that convey the Scandinavian feeling. These are tuned to be combined in interplay with our materials and surfaces for distinct colour mixes.

NEW FOLK

Brings together the authentic feel through rich multi-coloured structures and woolen surfaces in vivid colours. The sense of warmth gives a homely and genuine feeling.

NB. Please note that the colours shown in these illustrations may vary from the actual colours.

SENSE

Embracing a mood of calmness with serene structures in lightly subdued colours. The sense of clarity and lightness provides a soothing impression.
