Ready to recruit and retain top talent with a better A/E/C compensation program, one that aligns with your firm’s market and financial performance objectives?

Way more than a generic payroll review — you get the industry’s most accurate salary, incentive and benefits data, and our team of expert compensation consultants delivering a strategically-crafted pay structure that aligns with your firm’s culture and financial objectives.
### Common Compensation Mistakes

<table>
<thead>
<tr>
<th>Mistake</th>
<th>How PSMJ Avoids Them</th>
</tr>
</thead>
<tbody>
<tr>
<td>Failing to consider the impact of increased compensation on financial performance</td>
<td>Wage increases impact your firm’s competitiveness for winning projects, so it’s critical to benchmark each employee with metrics like utilization and billing rate multiplier. Your PSMJ compensation analysis lets you adjust these metrics and forecast revenues as base salaries increase, helping maintain profitability.</td>
</tr>
<tr>
<td>Using only one compensation survey, and only looking at A/E/C data</td>
<td>In addition to proprietary surveys, PSMJ applies several external data sources to ensure accurate results, including relevant non-A/E/C industry data.</td>
</tr>
<tr>
<td>Assuming that salaries are confidential</td>
<td>Unbalanced, unfair compensation systems create lower employee engagement and higher turnover. Your report reveals internal degree-based inequities so we can remedy them before they cause morale and productivity problems.</td>
</tr>
<tr>
<td>Failing to link compensation strategy with growth goals</td>
<td>Facilitating a discussion among your firm’s key leaders means your firm’s growth and profitability goals drive any recommendations.</td>
</tr>
</tbody>
</table>

### MAKE SMARTER DECISIONS WHEN YOU KNOW WHAT PEER FIRMS AND COMPETITORS HAVE ACCOMPLISHED

When it comes to compensation, benefits, and the bottom line, how do you stack up against other A/E firms?

Guide your firm to growth and greater profitability with data found only in PSMJ’s Benchmark Survey Reports.

“The only source we know that provides such extensive data for our industry.”

Rosie Saldivar, Business Manager
Harris Consulting Engineers

A Compensation Plan Built on Deep Expertise Optimizes Financial Performance and Employee Satisfaction

Over time, A/E/C firm compensation can become unbalanced, uncompetitive, and even unfair—leading to unhappy employees looking elsewhere and a bloated payroll failing to deliver ROI.

Your PSMJ compensation analysis covers all elements of non-exempt, exempt, PMs/middle management, and senior management compensation, including rates, incentives, and benefits.

Engaging PSMJ in a compensation analysis results in a pay structure that is....

WORKING TOGETHER, WE:

✓ **Determine** which of your firm’s base salaries and bonus levels are competitive with A/E/C firms in your market/region and which need attention.

✓ **Propose** adjustments for positions based on best possible ROI.

✓ **Develop** a performance bonus strategy that rewards and incentivizes peak performance.

✓ **Establish** appropriate utilization goals and billing rates for each employee, enabling you to track performance.

✓ **Predict** the financial impact of every compensation adjustment.

“It was great having PSMJ’s expertise to help us understand how to use the right tools for financial analysis and to see where our firm fits and get the best results.”

Jay Brotman, Partner / Svigals + Partners, LLP
PSMJ’s Comprehensive Approach Starts and Ends With You

FAMILIARIZATION WITH YOUR FIRM
We begin by listening and learning about your current job descriptions, compensation data, employee benefits, and more. We then facilitate meaningful conversations between PSMJ consultants and your key personnel to reveal goals, challenges, and opportunities.

LABOR MARKET ANALYSIS
PSMJ matches each employee’s position to a comparable position in surveys based on job title, job description, relevant experience, and level of responsibility. With the matches made, your consultant uses two or three published surveys—including PSMJ’s exclusive compensation surveys—to analyze how your compensation practices compare to the labor market.

EQUITY ANALYSIS
Using PSMJ’s proprietary Salary Equity Tool, your firm will be able to ensure that there is internal equity between positions, establish appropriate utilization goals and billing rates for each employee, and understand the financial impacts of any salary adjustments.
Why Choose PSMJ?

- **Industry experts**—At PSMJ Resources, the A/E/C industry isn’t just another client sector; it’s our only business focus and has been for over 40 years.

- **More than two decades of compensation experience**—PSMJ has studied compensation and bonus programs for over 20 years, resulting in us having an impressive amount of data and knowledge about what works and what doesn’t.

- **Exclusive, industry-leading benchmarking data**—We use PSMJ’s exclusive A/E compensation surveys to benchmark your firm against similar ones in your industry—including our surveys on management compensation, staff compensation, bonus and benefit plans, and financial performance. The use of our surveys—paired with external surveys—leads to exhaustive, data-driven recommendations.

- **Use of PSMJ’s proprietary Salary Equity Tool**—Using this exclusive tool, you can ensure that the base salaries for all your employees are internally equitable, create utilization goals and billing rates for each employee, and determine the financial impacts of any salary increases.

- **We don’t match positions based solely on job title**—PSMJ’s consultants look deeper into each employee’s role, taking into account relevant experience, level of responsibility, job description, and geographic location.

- **Consultants that bring real-world experience**—PSMJ consultants have successfully managed top design and engineering firms and deliver proven advice and real-world solutions.
