Showcase a specific product with rebates.

Use the hero image at the top to call out finding rebate estimates on your "best selling product" or a product you want to promote!

Let them know they can get up-to-date rebate information for a specific product instantly on your website - it's so fast they won't believe it! They just need to enter in their zip code to get rebate estimates instantly.

Format the link for the call-to-action button so that specific product automatically populates in the widget. Here's how to do it. Populate the blue text in the link below with your information, **be sure to test the link you create to make sure it goes to the right place!**
