

SAP Business One Powered by Ocean9

ocean⁹

Ocean9 is the leading provider of SAP solutions on Amazon Web Services (AWS) and Microsoft Azure. Based on the Ocean9 Intelligent Platform, SAP Business One powered by Ocean9 provides customers with a premium solution configuration that is tailored to their needs.

Users of SAP Business One powered by Ocean9 experience unrivaled solution availability, security and end-user performance. Finally, no more delays in business transaction processing on the shop floor or warehouse during your pick-pack scanning.

All this comes at a highly competitive per user price without any fine print or surprises.

Enterprise Class Capabilities

- Premium end-user performance
- High availability
- Leading security

PLUS
