1 Will your solution adapt to healthcare reform as it happens, including any changes to state and federal regulations?

2 Can your system determine how healthcare reform will impact my benefit costs?

3 Does your solution aggregate and consolidate data from multiple systems, including HR, Benefits, Payroll, COBRA, Leave Management, and Retirement systems?

4 Does your system audit data for integrity issues and identify workforce trends?

5 Does your system allow users to build and audit Forms 1095 on a month over month basis?

6 Can I use your system to analyze the impact of offering different coverage to different populations?

7 Will I have access to a dedicated support team for training and assistance? Do you offer Managed Services?

9 Is your system a one-stop shop for audit defense? Will I be able to generate appeals directly from your system?

8 How does your system handle form errors and IRS corrected returns?

10 Will your system tell me when an employee is trending eligible?

Stay a step ahead of healthcare reform with the market-leading solution that adapts to ongoing legislative and IRS changes at both the state and federal levels.
