

# Components of a Successful, Workplace Violence Prevention Enterprise-wide Program

## Evaluate

Gap-analysis of organization's current workplace violence prevention efforts to identify strengths & opportunities for improvements.

- Policy and Procedure Assessment
- Site Security Survey
- Site Security – Staff Review
- Examine Internal and External Resources

## Prepare

Review of data gathered during Evaluate phase, resulting in defined areas of risk & implementation of corresponding best-practice solutions.

- Data Analysis
- Policy and Procedure Development
- Threat Assessment Team Training
- Training for Managers and Supervisors
- Training for All Employees

## Intervene

Throughout Evaluate & Prepare phases, organizations must intervene in potentially dangerous threats, disruptive situations, or problematic behaviors.

- Identify
- Assess
- Manage
- Executive Briefing
- Written Report
- On-going Threat Management

## Intervention
