

# SolvTrue™

## S3000 Solvent Recycler

*For Recycling Solvents in Painting and Coating, Printing and Composites Applications*

## Recycle and Reuse Industrial Solvents with 99.5% Recovery

Reduce waste generator status and cradle-to-grave hazardous waste liabilities with solvent recycling and reuse.

### Features

#### Automation

- Microprocessor controlled with easy-to-read LCD display
- Easily modified programming for special solvent requirements or additional solvents
- Designed and built for multiple shift operations

#### Safety

- Multiple safety controls with automatic shutoffs

#### Ergonomics

- Quiet operation
- Small footprint
- Waste removal versatility—tank drain for liquids or bag function for solids

#### Performance

- Simple distillation
- 30 gallons up to 2 runs per day operating volume
- Unlimited usage from one batch of solvent

*The SolvTrue™ S3000 Solvent Recycler is a simple distillation system for recycling industrial solvents including mineral spirits, naphthas, paint thinners, alcohols, acetone, organic acids, and chlorinated, fluorinated and brominated solvents.*

# S3000 Solvent Recycler

## Technical Specifications

<b>Capacity</b>	30 gallon (114 liter)
<b>Dimensions</b>	30" W x 48" L x 69" H (76 cm W x 122 cm H x 175 cm D)
<b>Electrical Configurations</b>	220/240V/3PH/60Hz – Standard 440/480V/3PH/60Hz – Optional
<b>Fill Device</b>	Manual – Standard Automatic – Optional
<b>Cooling</b>	Air cooled – Standard
<b>Chilling</b>	Optional
<b>Construction</b>	Stainless steel
<b>Mounting</b>	Legs – Standard
<b>Other</b>	Batch-style or optional continuous-feed processing

## Cost-Saving Benefits and Advantages

Our industrial solvent recycling solutions are designed to help lower your plant’s solvent spend, reduce solvent waste and disposal costs, adhere to relevant industry regulations, and maintain certifications while positively impacting the environment.

**Achieve sustainability**

**Reduce hazardous waste**

**Improve operational efficiency**

**Save up to 90% annually on solvent purchase and disposal costs**
