

Michael's Maxims

- › If anything can go wrong - Fix It! (To hell with Murphy!)
- › Relentless persistence most often beats out analysis.
- › Multiple projects lead to multiple successes.
- › Start at the top - then work your way up.
- › Step in and occupy the space you're looking to move into next.
- › When forced to compromise - ask for more.
- › If you can't beat them, join them - then beat them.
- › If it's worth doing, it's worth doing right now.
- › When given a choice - Take Both!
- › When in doubt: THINK!
- › Patience is a virtue but persistence to the point of success is a blessing.
- › The squeaky wheel gets replaced.
- › "No" simply means begin again at one level higher.
- › Bureaucracy is a challenge to be conquered with a righteous attitude, intolerance for stupidity, and a bulldozer when necessary.
- › If you find a door locked, take the hinges off the other side.
- › Sometimes going in the "out" door gets you to the front end of the line.
