SCHEDULING

When you ask us to schedule a surgery for you, we must take several steps to prepare for the day of your surgery:

1. Reserve the operating room.
2. Order and pay for any surgical supplies needed for your surgery.
3. Secure the necessary staff that will be needed, and/or provide coverage to free them up from their other responsibilities.
4. Arrange anesthesia coverage for your case. We must guarantee that we will pay them for this time, whether or not you go through with your procedure.
5. We must turn down every other patient who wants surgery on the day and time we have reserved for you.

Because of these financial obligations and time commitments we must make, we ask that you be certain about your desire for surgery and be positive that you have the funds available before asking us to schedule your surgery.
