

HIRSCHMANN

A **BELDEN** BRAND

Limited Lifetime Warranty Switch Registration Program

PB00040

The Lifetime Warranty Switch Registration Program from Hirschmann Provides Customers the Best Warranty in the Industry while Benefiting from Pro-active Support.

This Lifetime Warranty Applies to Purchases Made After May 1, 2011 and Registered Within Six Months of the Purchase Date.

What products are covered within this Lifetime Warranty Program?

This Lifetime Warranty Program applies to the product families as indicated on page 2 of this document and are warranted at the time of delivery to original buyers in the U.S. or Canada, to be free from defects in workmanship and materials for the lifetime of the product.

Hirschmann will repair or replace the product at our discretion if it is determined by Quality Control to be defective. Replacements are limited to the availability of identical replacement or compatible hardware. Repairs are limited to the availability of replacement components.

Who is eligible for this lifetime warranty program?

This program only applies to eligible products purchased and utilized in the United States (U.S.) or Canada.

How Does this Benefit You, the Customer?

Aside from providing our customers with an extended level of product reliability warranty and assurance, The Lifetime Warranty Program also permits Hirschmann to perform proactive support by being able to provide firmware update notifications, obsolescence announcements and awareness of product family additions and enhancements.

How do my products qualify for lifetime warranty?

Products purchased and registered after May 1, 2011 qualify. Products must be registered within six months of the purchase date. Due to limited instances resulting in product being purchased from existing distributor stock, a copy of the customer's order/purchase order with the distributor may be required.

What is the registration process?

Go to www.registermyswitch.com and create an account by filling in the requested data. This user account is necessary to log into the site and register each individual switch. For simplicity's sake, only the last 4 digits of each switch's serial number have to be entered. Once an account has been created, the user can register additional switches as well as reference previously-registered switches at any future time.

**A new product to serve your needs.
Be certain.**
