

Workforce Management Tools for Payroll, HR, and Finance Professionals

IDI's Proven Process

Workforce Management Solutions As Reliable As You Are.

What You'll Get

More time back in your work week.

Less stressful payrolls.

Peace of mind that you're in compliance with government and union regulations.

Cost-savings by streamlining processes across multiple systems.

Industry-Specific Solutions

Because we focus on building industry-specific solutions, we understand the unique reporting and compliance complexities you face. Get customized solutions that help you stay compliant and keep your payroll running smoothly.

Construction

Automate complex wage decisions to stay compliant with labor laws, union, and government regulations.

Non-Profit

Understand performance and analyze real-time data allocated across projects, departments, or grants.

Professional Services

Automate calculation of overtime and bonuses/commissions in compliance with FLSA guidelines.

Manufacturing

Automate unique incentive pay policies that reward top performers.

Other industries

Connect your time, payroll, ERP, or other employee systems, regardless of vendor or industry.

"Before we started with IDI we didn't have as many prevailing wage jobs, but then it started increasing exponentially and got bigger than we could handle on our own. With all the rules and everything it was perfect that we got in with IDI when we did. It is nice that everything is now in the cloud with IDI. The payroll batch that comes in is good to go. We LOVE it because we don't have to do anything!"

Kim McLain, Executive Secretary
Construction Industry

"I've been really happy with IDI's salary allocation solution. It's saving me a lot of time - three or four hours every payroll. And it removes the chance for error."

Shelly Worden, Fiscal Specialist
Non-Profit Industry

There was no moment in the whole process where we were frustrated. It's been a huge load off of me from having to do everything in Excel, so it's been a HUGE help and time saver. It's been everything we wanted it to be."

Laura Revak, Payroll
Services Industry

"Our IDI integration solution between Time and Attendance and Epicor is very seamless, very painless. It performs flawlessly, and I have not had an issue. Not a single problem."

Greg Page, Payroll
Manufacturing Industry
