

SEPARATORS INC.

For more than 30 years, Separators Inc. has been your one-stop source for Alfa Laval/Tetra Pak and Westfalia centrifuge service, parts, and equipment.

Fully Remanufactured Centrifuge - Quick Delivery

HMRPX 718 HGV (Serial #4028117)

Frame and cover, interior and exterior are restored to like-new condition.

New seals, gaskets, and bearings are utilized along with other key components being fully refurbished.

Also includes new base plate for in-floor mounting.

Available with new Control Suite (Control Panel and VFD), featuring Allen Bradley components.*

Preventative Maintenance Plan is also available to keep the separator running at peak efficiency and dependability.*

*Contact your Regional Sales Representative for additional information.

This is a modern, large capacity separator that features both high skimming efficiency and consistent cream quality!

The bowl is independently balanced prior to balancing the machine as a whole unit.

Energy efficient design for maximum noise suppression. (approx. 80 dB)

The complete unit is subjected to an extensive test-run check for smoothness of operation and proper function of all features.
