

POWWR

# YOU'RE NOT ALONE

WITH POWWR  
MANAGED SERVICES

Scheduling & Settlements | Supply & Risk Management | Retail Price Support | Licensing Services

*Our managed services team has over 200 years of Electricity and Natural Gas risk and position management experience. We can be part of your team or your entire team.*

## Where We Can Help:

- **Risk and Position Management**
  - Forecasting w/ Extreme Weather Scenarios
  - Scheduling / Nomination
  - Hedging / Portfolio Management
- **Settlements and Future Analytics**
  - Including PJM and MISO ARRs
- **Supplier, Regulatory and REC Services**
  - Applications and Registrations
  - Supplier arrangements and negotiations
  - ISO, state, region, utility, pipeline, etc.
- **Sales and Growth Support**
  - Price (Model, Matrix and Custom)
  - Customer/Broker On-boarding
  - Contract Facilitation
  - Broker Commissions and Relationship

Our team can utilize your reports or access the suite of POWWR risk and position management platforms. Clients come to POWWR to **enhance operations**, **increase margins** and **maximize scalability** while growing.

Bottom line, we help our clients **make money!** Our unique value is that we are holistic in our managed services expertise, yet modular; addressing client challenges only where needed.

# Holistic and Modular Approaches:

Some of the electric services we provide include, but are not limited to, the following:

- RPS Position including review of historical accrual.
- Monthly accruals, retirements, and compliance filings for PJM-EIS, M-RETS, and NEPOOL-GIS.
- Regulatory actions that pertain to the industry as well as RPS requirements.
- Position monitoring and management, including RPS, Voluntary, Energy, and Capacity.
- Scheduling services for PJM, MISO, NEISO, and ERCOT.
- Weekly position reports and any additional analytical reporting for management.
- Daily and monthly gross margin settlement estimates.
- POWWR [FA] future financial analytics.
- Pricing models for PJM, MISO, NEISO, and ERCOT.
- FTR/ARR services (MISO and PJM).
- Structured hedging scenarios that assist in mitigating pricing risk.
- Pricing matrix data analyzation from vendors used to drive pricing updates.
- Monitor and report Price to Compare [PTC] for internal reporting.
