Cyber Essentials Experts

Cyber Essentials is a Government-backed, industry-supported scheme to help organisations ratify their cyber security systems and platforms in order to protect themselves against common online threats.

Silverbug will help you to guard against the most common cyber threats and demonstrate your commitment to cyber security – putting you on the path towards gaining certification.

CYBER ESSENTIALS ✓

CYBER ESSENTIALS PLUS ✓

- Demonstrate that you have 5 key controls in place.

- Five key controls are; Boundary Firewalls & Internet Gateways, Secure Configuration, Access Control, Malware Protection and Patch Management.

- Cyber Essentials requires a self-assessment questionnaire - reviewed by an external certifying body.

- Independent assessment of your security controls

- Vulnerability scan, which will identify unpatched, or unsupported software, open ports and incorrect firewall configuration.

- Supports physical and technical controls for restricting access to third parties, such as clents and suppliers visiting your offices.

Benefits of Cyber Essentials

Protect your organisation from 80% of cyber-attacks
Protect your business by implementing the five controls correctly into your business.

Drive business efficiency
Cyber Essentials allows you to focus on your core business objectives knowing that you are protected from the majority of cyber-attacks.

Increase your chances of securing business
The majority of government supply chains and contracts now require this as a qualification for applying.

Demonstrate security and help secure your supply chain
By demonstrating your commitment to protecting your business, customer and supplier data, your company will address other compliance requirements.

GDPR Compliant
Whilst GDPR regulations cover a large scope of data security, Cyber Essentials can help your organisation avoid large fines by proving to the UK regulator that your business has the right controls in place.

Reduce cyber insurance premiums
Cyber insurance agencies often look more favourably on organisations that have achieved Cyber Essentials certification.
