

Cyber Security Experts

Cyber criminals are not afraid to target even the most resilient organisations, with your reputation, assets, and business all at risk. Cyber attacks are now a global threat that could cost your business significantly, so it is more important than ever to review your security set up.

Silverbug specialise in secure Cyber Security to prevent a disaster from striking your business long before the attack. This is supported by our ISO27001 accreditation which outlines the highest security standards.

Using our proactive approach, Silverbug can offer a variety of Cyber Security solutions, such as:

- Proactive Monitoring
- Multi-Factor Authentication
- Managed Security Services
- Next-Gen Anti-Virus
- Web and Email Filtering
- Crisis Management
- General Data Protection Regulations (GDPR)

“Our expert team will be more than happy to listen to your requirements and tailor a bespoke solution to fit your companies’ budget and needs.”
