IIPP Basics Class – Compliance & Effectiveness

Just like managing many other aspects of your business, you must create and implement a plan to protect your people and your company. Without this, you are not achieving the best means to control the damage and costs resulting from employee injuries. Join us to learn the secrets of how to develop, improve and enhance your company's Injury and Illness Prevention Program (IIPP).

California law requires employers to not only provide a safe and healthy workplace for their employees, but to also have an effective IIPP in writing that is specific to your industry and potential exposures. Attendees will leave with an understanding of:

- How to get started and/or review your IIPP
- The purpose and value of customizing the 8 required sections
- IIPP development guidelines and resource materials

This course is a great opportunity to create or improve your existing IIPP, ensure you have a foundation to prevent claims, and comply with basic regulatory requirements.

Featured Presenter:

Jeff Hulson, ARM, CEES

Director, Risk & Loss Advisors, Barney & Barney/MMA
