

Asyma Solutions Ltd (asyma.com), a software and technology provider in Western Canada, is pleased to announce a new partnership with Sage Intacct. As a Sage Intacct Partner, Asyma Solutions Ltd will sell, implement, and support Sage Intacct's award-winning cloud financial applications. Asyma Solutions Ltd is a long-time top-performing Sage partner, and the addition of Sage Intacct to its product portfolio will respond to significantly increased client demand for cloud-based Software as a Service (SaaS) solutions.

Sage Intacct, a cloud-based financial application that not only touts best-in-class functionality and high customer satisfaction ratings, also holds the honour as the only company the AICPA acknowledges as its preferred provider of financial applications. Asyma Solutions clients will also benefit from Sage Intacct's reporting and analytics capabilities. Sage Intacct's general ledger uses dimensions to capture the business context of transactions, operational measures, and budgets. As a result, companies can quickly create reports that analyze real-time business performance by business drivers without having to manage a chart of accounts with hundreds of segments. Sage Intacct's financial and operational dashboards convey the big picture at a glance and can be tailored to the specific needs of each stakeholder.

Asyma CEO Keith Greeno is "excited about the opportunities that lie ahead with Sage Intacct, which is a great fit for our target industries due to its feature-rich functionality that automates even the most complex processes and surfaces the richest financial and operational insights to help companies respond to dynamic marketplace demands. Intacct's multi-currency and multi-entity functionality will be a huge asset for clients in the services industry as well those with distributed and multi-national businesses. Intacct's fund, grant, and donor accounting also make it a great fit for a wide range of non-profit organizations."

Asyma Solutions Ltd provides leading-edge business software solutions to construction, service, non-profit, and manufacturing businesses, specializing in the implementation, consulting, and training of Sage 100 Contractor, Sage 300 Cloud, Sage Estimating, Sage Human Resource Management System, and Technisoft. The addition of Sage Intacct will allow us to deliver more options to assist our client partners to grow their businesses.
