## PROFITABILITY

### FIRM FOCUS

Firm Focus includes BigSquare's enhanced Profitability application, which allows your end-users the ability to easily perform profitability analysis on the dimensions that matter at your firm. All you need is an internet browser and you can slice and dice a library of profitability related metrics against key firm dimensions including but not limited to: clients, matters, practice groups, departments, offices, timekeepers, matter arrangements, titles, and much more! Information is targeted and secure so you can provide profitability metrics to the right individuals at the right time without the need for expensive third-party report writers or vendor supplied reports.
