

BIGSQUARE

PROLYTICS

Delivering professionals the latest
business intelligence solutions

WHO WE ARE

BigSquare specializes in providing professionals with an effective business intelligence (BI) solution.

WHAT WE DO

Business Intelligence Applications

Easy enough for professionals, powerful enough for firm administration. ProLytics gathers all of your firm's financial data into one intuitive dashboard application. We make it easy for your team to access the data they need when they need it.

Reporting

Avoid the pain of manual reports. Our Integrated Reporting System prepares your data for you so you can spend less time waiting for answers and more time acting on them.

Custom Application Development

Do you have an idea for an application but lack the resources to develop it? We are happy to work with our clients on customized application development.

PROLYTICS

One Screen Overview

ProLytics pulls all of your financial data from your entire organization and showcases it into one intuitive dashboard. Gone are the days of switching between multiple reports, spreadsheets, and 3rd party applications to get to the data you need.

User Friendly

We keep it simple. Our user interface allows easy access to your information without having to go search for it. Everything is available within 2 clicks, empowering you to understand your book of business faster.

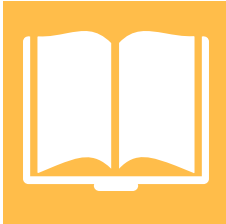

Blazing Fast

ProLytics' refresh rates are lightning fast. Don't let your software become shelfware; access the data you need when you need it.

PROLYTICS

Role Based Contexts

Our role-based contexts ensures that the right users gain access to the right information at the right time. Is your methodology different than your peers? No problem. We customize everything based on your firm's culture.

Admin Console

A robust administrative console allows your firm management to administer a myriad of application configurations and security options. No firm is the same, which is why our one of a kind administrative console allows you to easily configure everything from KPIs to Inventory Aging Buckets by role.

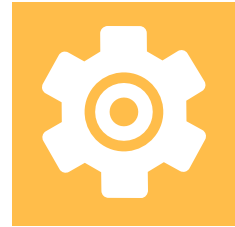

Nightly & Near Real Time Builds

No need to wait for month end reports. Get nightly or real-time data through ProLytics.

PROLYTICS

Highly Configurable

We built ProLytics based on the industry standards, but we know that every firm is different. That's why everything can be configured based on your firm's story – color schemes, nomenclatures, security roles and more. You name it, we can do it.

Alerts

ProLytics' alert system gives you the ability to choose what information is brought to your immediate attention. You stay informed without having to search or constantly monitor your data. Keep tabs on real-time daily cash receipts, time card narratives, and more.

Mobility

ProLytics was designed for every screen in mind, which means you can instantly access your data regardless of your device. We don't cut corners; all of our standard desktop features are available on any smartphone or tablet.

PROLYTICS

Global Smart Search

Need to perform further analysis into a specific client, timekeeper, engagement, title, arrangement, or another category? ProLytics has you covered. With our global smart search, end users can transform the application interface to reflect your unique search criteria to gain better business insight.

Outlook Integration

No need to switch between screens or applications. Access your timecard narrative and check your unreleased time through your Outlook Calendar or quickly pull up an invoice for a client without ever having to leave your inbox.

Sharepoint Integration

Share and collaborate on what's important - ProLytics' widgets are shareable through your intranets or extranets. Our data is instant, so there is no need for any installation or configuration to your Sharepoint server.
