

Smart System® | **VR Headset**

## The Only VR Headset with Time-Tested Software

**M&S takes vision testing to new heights.** The programmable VR Headset with Surface Pro 7 Tablet is powered by our trusted M&S Smart System® software for fast and accurate vision testing. Our years of experience and service continue to help your clinic shine.

### Reliable Results

Trust data accuracy with *Active Eye Tracking* technology that continuously monitors patient fixation and pauses the test when fixation is lost.

### Speed and Efficiency

Our proven testing protocols reduce patient fatigue by providing *QuickScreen* results in 45 seconds and full threshold test results in under 3 minutes per eye.

### Patient and Practice Friendly

Comfortable design with easy set up, audio and visual cues to your technician and patient, the ability to test without a wifi connection and results that can be immediately exported to your EMR.
