

# EMPACT<sup>®</sup> Studio

## Democratize Access To Immersive Content Creation

EMPACT Studio provides a suite of no-code immersive content creation tools to rapidly produce, deploy, and sustain reusable, repeatable, mission-centric training within virtual environments.

### Key Features and Benefits

**No-Code XR Content Creation**  
 Subject Matter Experts (SME's) record and transfer their knowledge to rapidly create real-time, modular immersive training without any coding skills.

**Digital Ecosystem Integration**  
 Publish lessons to a secure cloud, and plug and play into new or existing curriculum seamlessly integrates into legacy software ecosystems.

**Scalable and Sustainable Model**  
 Update virtual training content, lessons, and materials on demand, in house. DoD created training, DoD owned training.

**Self-Authoring Content Tools**  
 Warfighters of all skill levels can create XR training, capturing their expertise, telemetry, audio, behavior, and decision-making to ensure knowledge is retained and passed on.

**Hardware Agnostic Deployment**  
 Training distributed and consumed across a range of XR and non-XR devices, headsets, and hardware.
