

COOPERATIVE EDUCATION (CO-OP)

Wentworth is well known for preparing an exceptional workforce through its academic excellence and cooperative education (co-op) program. Since 1975, Wentworth has prepared our graduates to enter the workforce with significant experience. Unique in higher education, all undergraduate day students must complete two co-ops to graduate, ensuring our graduates have current knowledge and skills to launch their careers.

Co-op is an opportunity for employers to hire talented, highly motivated students who are passionate about their fields and eager for workplace experience. Co-op connects classroom learning with productive, paid work experience. Students are available for up to three 4-month terms.

BENEFITS OF HIRING CO-OP STUDENTS

- A selection of high-potential STEM individuals for career positions
- A chance to evaluate candidates in your environment
- An opportunity to showcase your organization as an employer of choice
- Better access to qualified candidates
- Flexible staffing to meet fluctuating needs
- More effective use of experienced staff
- Low risk supervisory experience for your employees
- Enhanced public relations
- Fresh ideas, high energy, motivation and productivity

It is easy to join Wentworth's co-op program. We provide the information, resources, and support to make your hiring easy.

WITWORKS

WITworks is a complimentary, self-service job board allowing employers to advertise co-op and fulltime job opportunities. Annually, over 12,000 job applications are processed through WITworks.

ON-CAMPUS RECRUITING

Whether through the annual career fairs, on-campus interview days or Mock Interview Day, the Center for Cooperative Education and Career Development can coordinate services to best meet your needs.

ENGAGEMENT OPPORTUNITIES

Employers can participate in various programs to meet our students such as: Employer-in-Residence, Wentworth-on-the-Road, Co-op Institute guest lecturing and more. Contact us to get engaged.
