

# AUTOMATE YOUR BUSINESS

Eliminate manual, repetitive work for your online store

## Connect Your Apps

With support for dozens of the most popular e-commerce platforms and apps, Toolkite brings all of your data under one roof through pre-written API connections. We help you *amplify your efforts, dramatically reduce development costs, and increase efficiency* through automation.

## Build Automations

Toolkite enables you to easily create custom automations that keep order, product, customer, inventory, & shipment information in sync across all of your sales channels and platforms. If manual and repetitive tasks are part of your workflow when fulfilling an order, Toolkite takes care of those, allowing you to focus on tasks that are more important to your customers and business growth.

## Be Prepared for Growth

With Toolkite, you'll never be afraid of tech challenges when adding a new sales channel, inventory software, marketing tool, shipping platform, etc. We give you access to our library of pre-written connectors, helping you quickly connect to new apps, at a fraction of the cost of custom development.

## Common Use Cases

- Syncing multiple sales channels
- Connecting to 3PL partners
- Automated accounting sync
- Unified dashboard for all sales channels
- Connecting to multiple shipping providers
- Custom order handling for fulfillment
- End Excel based workarounds
