## 1200 Stretcher Lift

---

The Invacare 1200 Stretcher Lift is a battery-powered, height-adjustable lift that transports residents in safety, comfort and dignity. Handling is minimized as the resident stays on the lift throughout the bathing cycle.

This durable lift is easy to maneuver. It may be folded up for easy transport when unloaded and either end may be used as the “head end” to facilitate transfers from either side.

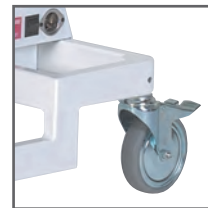

## 1200 Stretcher Lift

---

### Convenience

An optional digital scale (Model IH1100) is accurate to nearest pound or kilogram.
