

Creatif Armorgard

Armorgard are one of the UK's leading manufacturers of secure tool, chemical and hazardous storage solutions.

They felt it was time to embrace the concept of agile working, ultimately tasking Axis House with refurbishing their offices and asked Creatif to help deliver.

To fully embrace agile working within the modern office, the design must allow for space flexibility to cater for a varied range of tasks - which is exactly why we designed our agile panel system, Float.

Lightweight and easy to move, Float acts effectively as a simple room divider.

Mixed in with solid white panels, the grey panels display the Armorgard logo water-jet cut into our semi-rigid acoustic Whisper panels.

In order to further optimise the acoustics within this open plan office, our fabric wrapped ReSound acoustic ceiling rafts were installed.

ReSound panels absorb 95% of sound that touches them, reducing noise distraction.
