

## Reprints Desk Announces Launch of Article Galaxy Gadget Store

*Powered by Reprints Desk's Award-Winning Research Platform, the Gadget Store Introduces a Novel Ecosystem of Science Apps Designed for Individual Researchers*

ENCINO, Calif., March 14, 2019 — **Research Solutions, Inc.**, (OTCQB: RSSS), a pioneer in cloud-based workflow solutions for R&D driven organizations, and its wholly-owned subsidiary **Reprints Desk** today announced the launch of the **Article Galaxy Gadget Store**. Powered by Reprints Desk's Article Galaxy research platform, the Gadget Store provides access to a first of its kind library of science applications, called Gadgets, designed for research and scientific experimentation.

Seventy percent of the top 25 pharmaceutical companies and small to medium sized businesses use Reprints Desk's award-winning **Article Galaxy** platform for literature access and discovery. With the launch of the Gadget Store, Article Galaxy's research engine is now available to individual researchers and scientists for the first time.

"We created the Gadget Store to help researchers improve discovery and save time," said Peter Derycz, President and CEO of Research Solutions, Inc. From document delivery to reference management to lab tools, our customers can choose the Gadgets they need for the specific task at hand. The Gadget Store lets scientists keep all their research in one place—with easy access to scientific content and data—without ever leaving their workflow. As a result, our customers report time savings of more than 50 percent."

Users can search for Gadgets by keyword or browse popular Gadget categories, then add the selected Gadgets to a user-friendly dashboard. Just like consumer apps, Gadgets run on a desktop or mobile web browser.

Common Gadget categories include:

- Search and discovery
- On-demand literature access
- Workflow and productivity
- Lab and visualization
- Biomedical research
- Journal table-of-contents feeds

“Gadgets are more than the sum of their parts,” said Derycz. “For example, users can use Gadgets in concert with each other to obtain even deeper insights and truly personalize their workflows.”

New Gadgets will be added to the platform on a regular basis. Across categories, Gadgets are aimed at accelerating scientific discovery, improving library workflows, and optimizing lab productivity. A few examples include:

- **Document Delivery Gadget** – enables users to order journal articles or book chapters 24/7
- **Reference Manager Gadget** – powers robust literature management and scientific discovery
- **Open Access Finder** – helps users to identify Open Access content quickly
- **PubMed Searcher** – combines a PubMed Search with pricing and availability information
- **Clinical Trials Searcher** – allows users to rapidly find clinical trials suitable to their needs

Opening a Gadget Store account is free and includes access to eight Gadgets. After setting up a free account, users can upgrade to a paid plan at any time.

For more information **take a video tour**, start browsing Gadgets or sign up for a free account at <https://info.reprintsdesk.com/gadget-store>.

### **About Research Solutions and Reprints Desk**

Research Solutions, Inc. (OTCQB: RSSS) is a pioneer in providing seamless access to scientific research. Its wholly owned subsidiary Reprints Desk, Inc., simplifies how organizations and individual researchers discover, acquire, and manage scholarly journal articles, book chapters

and other content in scientific, technical, and medical (STM) research. More than 70 percent of the top 25 pharmaceutical companies, prestigious universities, and emerging businesses rely on Article Galaxy, Reprints Desk’s cloud-based SaaS research platform, for simplified and lowest cost access to the latest scientific research and data. Featuring an ecosystem of app-like Gadgets for a personalized research experience, Article Galaxy offers individual as well as enterprise plans, coupled with unparalleled, 24/7 customer support. ### **Forward-Looking Statements**

Certain statements in this press release may contain “forward-looking statements” regarding future events and our future results. All statements other than statements of historical facts are statements that could be deemed to be forward-looking statements. These statements are based on current expectations, estimates, forecasts, and projections about the markets in which we operate and the beliefs and assumptions of our management. Words such as "expects," "anticipates," "targets," "goals," "projects", "intends," "plans," "believes," "seeks," "estimates," "endeavors," "strives," "may," or variations of such words, and similar expressions are intended to identify such forward-looking statements. Readers are cautioned that these forward-looking statements are subject to a number of risks, uncertainties and assumptions that are difficult to predict, estimate or verify. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Such risks and uncertainties include those factors described in the Company’s most recent annual report on Form 10-K, as such may be amended or supplemented by subsequent quarterly reports on Form 10-Q, or other reports filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to publicly release the result of any revisions to these forward-looking statements. For more information, please refer to the Company’s filings with the Securities and Exchange Commission.
