Article Galaxy Enterprise Checklist

Your Platform Savings at a Glance

Article Galaxy's document retrieval engine puts **70M+ full-text journal articles** at your fingertips, saving you time and money with fast and easy access to peer-reviewed scientific literature.

Features Include:

- ✓ Full-text access to journal content 24/7
- ✓ Quick download and/or rapid delivery of native PDFs
- ✓ Most journal articles delivered instantly or within minutes
- ✓ Lowest cost filters including duplicate detection and Open Access

But the savings doesn't end there. Unrivaled in its ability to conform to your organization's needs, an annual **Article Galaxy Enterprise Platform License** lets you create a custom research workflow, enabling better results, with fewer resources—for exponential time and cost savings.

More Savings. Zero Hassle

Here are just a few additional capabilities you will gain by upgrading to an annual Article Galaxy Enterprise platform license.

On average, sophisticated filtering options **save you 20% on article costs along with 50% lower transaction fees** – on top of immediate cost and time savings with on-demand document retrieval.

Don't leave money on the table! Find out more about Article Galaxy for Enterprise by visiting <https://info.reprintsdesk.com/pricing#comparison>.

Productivity Filters And Tools

Open Access Filter for Intended Use: Enterprise-level OA filters let you easily find and access free content, while ensuring you get the copyright-compliant version of record (VOR) for your intended use, including regulatory submissions.

Subscription Integration: Pre-order filtering automatically links to a licensed article you already own through an existing subscription. Avoid paying for content twice, optimizing, optimizing your subscriptions and journal holdings.

Publisher Tokens: Use Article Galaxy to recognize and leverage your tokens or configure with existing publisher packages. Manage your tokens in the way that's right for you, including self-service, hybrid, and Reprints Desk-managed models.

Article Rentals: Filter for rental availability to optimize your literature acquisition savings. Save up to 75% off the purchase price and view the full-text article online for three days with the option to upgrade to full purchase.

Reference Management: Enjoy comprehensive literature and reference management capabilities, including managing citations, sharing bibliographies, monitoring journal feeds, and much more.

Duplicate Detection: A copyright-compliant PDF library enables secure, enterprise-wide access to previously acquired PDF articles for which re-use licenses exist, while automated acquisition tracking provides duplicate alerts prior to checkout.

Advanced Literature Access

Custom Workflows: Integrate with the discovery portals that fit your workflow, including PubMed, 70+ other websites, and 3rd-party solutions. Choose the access approach that's right for you, including mediated, unmediated, or hybrid library workflows.

Usage Analytics: Document delivery and journal usage reports indicate which subscriptions or tokens are being heavily used and which are in low demand – providing the insights you need to make informed purchasing decisions to maximize cost savings.

Volume Discounts: Take advantage of reduced document transaction fees based on order volume. Batch order and delivery options let you access multiple articles in a single click.

Helpdesk: Enjoy 24/7 access to award-winning operations and support staff, in addition to a dedicated account manager and end-user training.

Monthly Billing: Simplify bookkeeping with a single monthly invoice for all transactions across all publishers, with an option for custom billing references.

Ends-of-the-Earth Sourcing: Access to all published content including hard-to-find documents with electronic, print, and extended sourcing services, including supplementary materials.

System of Record: A single centralized platform enables true ownership over – and visibility into – your Article Galaxy account, including all your purchases, PDF files, citations, and invoices.

Copyright Compliance: All documents are delivered copyright compliant for your stated intended use, effectively mitigating the risk of non-compliance. Our reuse guidance tools ensure users have the information they need.
