NEW & KEY FEATURES OF THE VIRTUAL SECURITY CLOUD LABS ENVIRONMENT:

- Direct LMS integrations, institutional license agreements, and custom lab development options are available as part of the Jones & Bartlett Learning Custom Solutions services.
- **NEW:** StateSaves allow users to complete lab exercises across multiple sessions. No need to race the clock! Users can save their work at the end of their session and pick up where they left off at any time.
- **NEW:** Three distinct difficulty levels—each lab scenario provides a prescriptive Hands-On Demonstration, an advanced Applied Learning section to improve mastery or challenge more advanced users, and unguided Challenge Exercises.
- Auto-graded assessment quizzes accompany each lab, and can be administered from Navigate 2 or uploaded to your own LMS and connected directly to your course gradebook.
- 24/7/365 Level 1 Technical Support.
- **NEW:** Our Lab environment provides latest versions of operating systems and software tools, including Windows Server 2016, Nessus Vulnerability Scanner, P2 Commander, Wireshark, and more.
- Available as a standalone lab solution or bundled with Jones & Bartlett Learning textbooks at a discounted price.
