GROUP**

A DIVISION OF JONES & BARTLETT LEARNING

2021 CATALOG

THE PUBLIC SAFETY GROUP DIFFERENCE

The Public Safety Group, a division of Jones & Bartlett Learning, has become the world's most innovative and trusted source for educational materials and solutions for EMS and fire students, educators, and professionals by combining the collective value of our people, products, and partners. From initial training to recertification to retirement, we strive to be a lifelong learning partner to those who serve our communities tirelessly and ensure our safety and well-being.

Please review this catalog for a glimpse at some of our key products and learning solutions, and then visit www.psglearning.com to learn more.

SUPERIOR CUSTOMER SERVICE

Personal, responsive service is the hallmark of the Jones & Bartlett Learning Public Safety Group. With our Account Specialists' exceptional attention to detail, experience, quick response times, and team-focused approach, we are renowned for our gold star service. Your questions and concerns are our number one priority. For decades, we have been putting our customers first, and we will continue to deliver the exceptional, personalized service that you deserve.

Product Demos and Review Copies

Product demonstrations and complimentary* review copies are available for qualified instructors who wish to consider a resource for course adoption. For faster service, make your request online at www.psglearning.com or let our knowledgeable Account Managers help you find the resource that best meets your course needs.

What's Our Secret to Success?

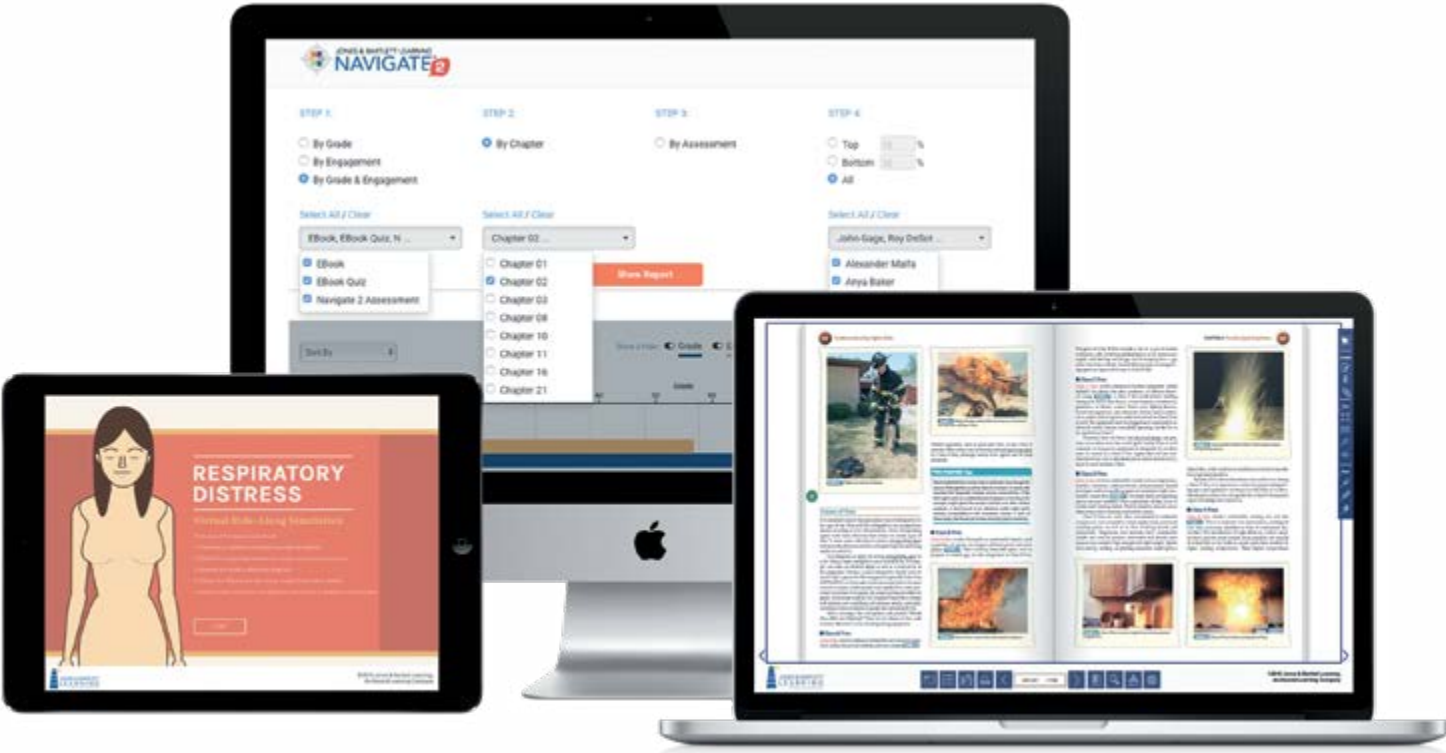

One of them is partnering with some of the world's most prestigious public safety organizations.

Let Navigate 2 Take Your Course to New Heights.

Navigate 2 is comprised of a suite of mobile-ready course materials that will change the way you teach, learn, and access course content. Whether you teach an online, hybrid, or traditional classroom-based course, you can use **Navigate 2** to improve results and deliver unbeatable value to your students.

- Market-leading interactive resources
- Proven preparatory and educational tools that improve success
- Personalized support and training to get you up and running
- Available for deployment on third-party learning management systems, such as Blackboard or Canvas

Try It Today

Transformative Learning and Instructional Tools

- Analytics.** Track and analyze student engagement and performance across a variety of assessments and subject areas, from eBook usage to quiz results. Dashboards provide deep insight into learner behaviors, effectiveness of course content, and identify trends that affect achievement.
- eBook.** Read textbooks online or offline, enhance learning with interactive tools, and make and share notes. Our improved eBook is fully responsive and simpler to use.
- Study.** Reinforce your comprehension of course materials with practice activities and other valuable learning tools. Students can prepare for graded quizzes and examinations in a low-stress environment, use key term flashcards to reinforce vital vocabulary, and more.
- Interactive Lectures.** Experience engaging, fully narrated lectures that allow students to learn at their own convenience and pace. Lectures create a mobile classroom perfectly suited for distance or hybrid courses. They are also an ideal tool to review the in-class lecture materials outside of the classroom.
- Simulations.** Perform skills in the safety of a virtual environment. Simulations make learning interactive and fun, while offering learners the opportunity to hone the critical thinking skills necessary for success.
- TestPrep.** Helps prepare students for certification or high-stakes examinations by offering practice and simulated certification tests, detailed rationales, and powerful data dashboards.
- Audio Book.** Complete reading assignments and build foundational knowledge while on the go, at your convenience.

Your Source for High-Quality, Low-Cost CPR and First Aid Training Solutions

With the **Emergency Care and Safety Institute (ECSI)**, you can have everything you want from a single, internationally recognized training organization. Discover why training with **ECSI** is the smart choice:

- 

Backed By the Latest Science and Trusted for Over 15 Years
ECSI programs meet the latest Consensus on Science and Treatment Recommendations from the International Liaison Committee on Resuscitation (ILCOR) and the current Cardiopulmonary Resuscitation (CPR) and Emergency Cardiac Care (ECC) guidelines and are offered in association with the American Academy of Orthopaedic Surgeons and the American College of Emergency Physicians—two of the most renowned medical organizations in the world. These organizations provide medical direction to **ECSI** and stand behind the content of our training materials.
- 

Training Tailored to Your Needs
With flexible course delivery options, you can offer your students the training they need in the manner in which they will excel. Simply purchase one of these four items in order to unlock a digital course completion card for the course: student manuals, student eBooks, online course access codes, pocket guides.
- 

High-Quality Materials
When you order your training materials from **ECSI**, you do not have to sacrifice quality for affordability. Our highly developed student manuals and interactive online courses feature the latest medical content and are filled with tips and tools to help your students succeed.
- 

Ease of Administration and Zero Fees
Joining **ECSI** is easy and involves no training center or instructor fees. As an **ECSI** Education Center, you have the freedom to manage your own courses and do not have to worry about paying recurring fees.

ECSI Courses and Materials

Student Materials

Manuals, eBooks, and Pocket Guides

Our highly developed, full-color student manuals feature the latest medical content and are filled with tips and tools to engage your students. **ECSI's** manuals are also available in electronic (eBook) formats to provide an economical and environmentally friendly alternative to traditional printed manuals. Finally, our pocket-sized guides are available for first aid and CPR refresher training.

Online Courses

Each online course can be used as an interactive supplement to reinforce what students have learned in the classroom, or as a distance learning platform where students can complete the knowledge-based component of the course online and then complete the hands-on skills evaluations with an instructor.

Nationally Recognized Digital Course Completion Cards

ECSI provides a digital course completion card with the purchase of one of these four items: student manuals, student eBooks, online course access codes, pocket guides. The digital course completion card can be sent via email to the student who completed the course and/or the student's employer. It can also be printed out by the instructor and issued to students at the training location.

Instructor Materials

Teaching Packages

With our unique Teaching Packages, you have the option to choose your teaching strategy:

- Lectures for a traditional classroom-based course
- Scenario-based for a more interactive course
- Mix and match learning tools and methods to engage and improve retention

Learning follows your lead with flowcharts, skill sheets, checklists, games, skill demonstrations videos, course outlines, presentations in PowerPoint format, detailed lessons plans, and much more!

**All Teaching Packages are available online and can be easily downloaded for seamless offline access.*

Emergency Care & Safety Institute (ECSI) training materials are developed and distributed by the Public Safety Group, a division of Jones & Bartlett Learning, the exclusive publisher for **ECSI**.

What We Make

Internship Management

Skills Tracker

The Skills Tracker is an online database for everything your students do during their field and clinical internships.

- Document field, clinical, and lab experiences on desktop, tablet, or smartphone.
- Monitor and evaluate students’ experiential learning online.
- Motivate students with graphs and reports that help them understand their strengths and weaknesses.
- Quickly and easily generate detailed reports for accreditation and end-of-term checkups

Scheduler

Manage your students’ internship schedules and compliance online.

- Subscribe to automatically view upcoming shifts as events on your personal calendar.
- No more double-booking: partner with other schools in your area to share your field and clinical calendars.
- Track which students are compliant with site-specific requirements.

Full Integration

When you combine Fisdap Skills Tracker and Fisdap Scheduler, you’ll be amazed at how easy it is to manage field and clinical experiences from start (scheduling the shift) to finish (documenting patient contacts). When a student chooses or is assigned shifts in Fisdap Scheduler, they automatically appear in the student’s Skills Tracker account.

For Educators

Preceptor Training

The CoAEMSP wants to know: Do you train the people who are training your students? Preceptor Training is an introduction to adult education theory that trains good clinicians how to also be excellent mentors.

- Flexible, self-paced online learning allows preceptors to pick up where they left off during their last visit.
- Educational videos, quizzes, and a final assessment highlight and reinforce key concepts.
- Printable certificates document the completion of our CAPCE-approved course.

Testing

Comprehensive Exams

Use our comprehensive exit exams to evaluate whether your students are ready to take their certification exams and become practicing EMS professionals. Over 97% of students who pass our secure exams pass the NREMT on the first attempt.

Available for:
EMT | AEMT | Paramedic

Study Tools

Study Tools give students the freedom of independent study. Unlike Fisdap Testing, the comprehensive practice exams in Study Tools do not have to be scheduled or proctored by you. Students take the exam on their own time.

Available for: EMT | Paramedic

Unit Exams

With Fisdap Unit exams, you can give your students a challenging, computer-based exam after each unit of the curriculum. Expose your students to critical-thinking questions early and often during their classroom training.

Available for: EMT | Paramedic

Entrance Exam

The Entrance Exam is different from other entrance exams because it was created by and for EMS educators, and includes a personality assessment. Use the Entrance Exam to help select the prospective students with the best likelihood of success in your program, or as a diagnostic tool at the beginning of your class to assess incoming students’ strengths and weaknesses.

Available for: EMT | Paramedic

Curious about how Fisdap can help you gain or maintain accreditation?

.....

One of the many benefits of Fisdap is its ability to collect data and pull reports on the information the CoAEMSP wants to know about your program. When it comes time for you to present reports and documentation, all of the records are neatly stored and available to you with the click of a mouse. Visit www.fisdap.net/accreditation to learn how Fisdap products work together to target accreditation needs.

COMMITTED TO ENHANCING AND ENRICHING THE EMERGENCY MEDICAL EDUCATION PROFESSION

GO.PSGLEARNING.COM/EDFOUNDATIONS

Foundations of Education

An EMS Approach

THIRD EDITION

National Association of EMS Educators

ISBN: 9781284145168 • Paperback • 340 Pages • © 2020

The evolving field of emergency medical services (EMS) requires professional educators who are knowledgeable about teaching and learning strategies; classroom management; assessment and evaluation; technology in learning; legal implications in education; program infrastructure design; and administering programs of excellence to meet state and national accreditation guidelines. *Foundations of Education: An EMS Approach, Third Edition* provides EMS educators with the tools, ideas, and information necessary to succeed in each of these areas.

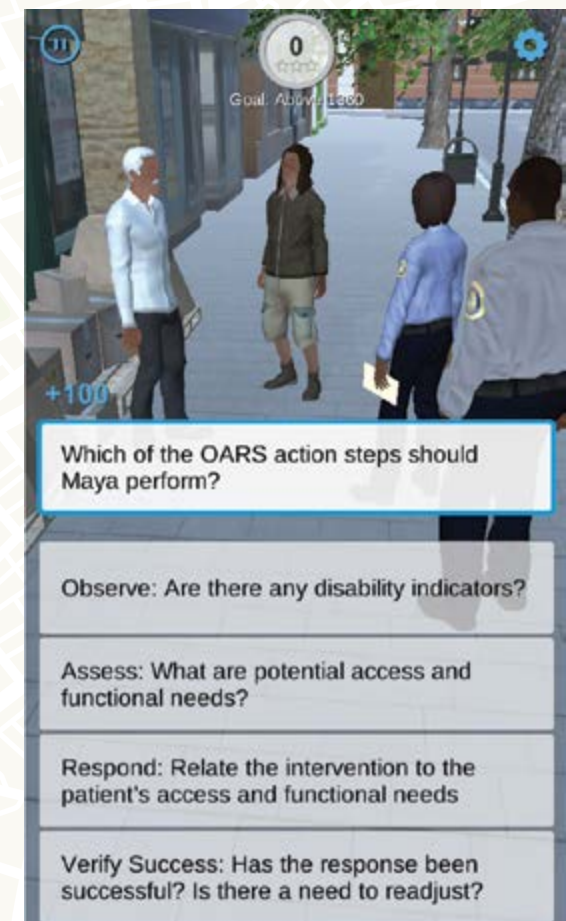

This textbook is used in the NAEMSE Instructor Courses, and is an excellent reference for all EMS educators, as well as educators in allied health professions.

RESCUE-D

A NEW ONLINE COURSE TO PREPARE FIRST RESPONDERS CARE FOR PEOPLE WITH DISABILITIES DURING AND AFTER AN EMERGENCY

When disaster strikes, risk is not distributed equally. Those who are vulnerable before an emergency may become even more vulnerable during or after an emergency. The University of Massachusetts Medical School and the Public Safety Group have teamed up to create the Rescue-D course to ensure all first responders are prepared to respond to people with disabilities.

The 4-hour, online simulation-based Rescue-D course features 20 unique training and rescue mission modules. Knowledge checks with feedback are offered throughout the course, and a final quiz will gauge comprehension before you can complete Rescue-D.

THE ROADMAP TO “FLIPPING” YOUR EMT CLASSROOM

A flipped classroom is designed to help educators shift from the role of lecturer to the roles of guide and facilitator. It allows traditional instructor-centered classrooms to transform into student-centered learning environments, where instructors can provide individual mentoring to each student.

The **EMT Flipped Classroom** delivers primary source content in a variety of engaging formats, including an *Emergency Care and Transportation of the Sick and Injured, Eleventh Edition* eBook and Interactive and Virtual Mentor Lectures. The course features student-directed courseware, including problem-solving activities, peer-to-peer activities, and student coaching tips, with competency checks throughout.

The **EMT Flipped Classroom**:

- Allows for hands-on learning during class time to ensure students retain critical information

American Academy of Orthopaedic Surgeons,
David Page, Heather Davis

ISBN: 9781284159295 • Navigate 2 Access • © 2019

- Helps students strengthen their decision-making skills and gain experience in a safe environment
- Enables educators to reduce lecture time and create meaningful student coaching opportunities

Learn how the **EMT Flipped Classroom** can help transform the way you teach and your EMT students learn.

Here Are Some Resources to Help Any EMT or Paramedic Student Succeed!

EMT AND PARAMEDIC INTERN MANAGEMENT OPTIONS

SCHEDULER—Manage students’ clinical internship schedules online where educators, clinicians, preceptors, and students can all view and interact with the live calendar.

SKILLS TRACKER—Document student learning, report student achievement and growth, and aid in program accreditation, and self-study.

EMT AND PARAMEDIC LEARNING PRODUCTS

COMPREHENSIVE EXAMS—Secure, comprehensive exit exams that evaluate and predict whether students are ready to challenge certification exams.

97% OF STUDENTS WHO PASS THE FISDAP COMPREHENSIVE EXAM PASS THE NREMT COGNITIVE EXAM ON THE FIRST ATTEMPT.

UNIT EXAMS—Help prepare students for comprehensive exams and provide educator insights throughout the course.

PARAMEDIC ENTRANCE EXAM—A unique exam that can be used to evaluate applicants as an admissions tool, or to perform a diagnostic analysis of a new student cohort.

PACKAGE OPTIONS

INTERNSHIP PACKAGE—Scheduler + Skills Tracker

ASSESSMENT PACKAGE—Comprehensive Exams + Unit Exams + Study Tools

ACCREDITATION PACKAGE (PARAMEDIC ONLY)—Scheduler + Skills Tracker + Comprehensive Exams + Unit Exams + Preceptor Training

PHTLS: Prehospital Trauma Life Support

NINTH EDITION

National Association of Emergency Medical Technicians (NAEMT)

ISBN: 9781284171471 • 762 pages • © 2020

go.psglearning.com/PHTLS9e

In the field, seconds count. *PHTLS: Prehospital Trauma Life Support* teaches and reinforces the principles of rapidly assessing a trauma patient using an orderly approach, immediately treating life-threatening problems as they are identified, and minimizing any delays in initiating transport to an appropriate destination. The *Ninth Edition* reflects current, evidence-based knowledge and practice, and promotes critical-thinking as the foundation for providing quality care.

The *PHTLS, Ninth Edition* main textbook is accompanied by the new PHTLS course manual, which reinforces and clarifies key concepts from the course; features an engaging, interactive design; and is written so you feel like you are participating in a conversation, versus listening to a lecture.

Becoming an NAEMT Instructor Is Easier Than Ever!

Learn More at: go.psglearning.com/NIC

STEP 1:

Successfully complete a provider course with a minimum passing score of 76% on the written test.

STEP 2:

Successfully complete the NAEMT Instructor Course online. Achieve a minimum passing score (80%) for the course on the online post-test.

The *NAEMT Instructor Course* provides instructor candidates with the basic training and information needed to become an instructor for any of NAEMT's continuing education courses.

STEP 3:

Submit an NAEMT Instructor Application.

STEP 4:

Teach a provider course while being monitored by an Affiliate Faculty member.

STEP 5:

Maintain your instructor status by teaching at least one course per year.

DID YOU KNOW?

First responders are 5 times more likely to experience PTSD and depression than civilians. In fact, more fire fighters and police officers have died from suicide than in the line of duty in recent years, yet little has been done to support this high-risk population.¹

INTRODUCING THE

First Responder Support & Resilience

Kognito; Public Safety Group

ISBN: 978-1-284-19287-2 • Online Course • © 2020

go.psglearning.com/resilience

The Public Safety Group, a global leader in EMS and Fire educational materials and services, has partnered with Kognito, a leader in evidence-based health simulations, to bring you **First Responder Support & Resilience**. This unique learning experience is centered on interactive simulations that enable students and experienced professionals to practice talking with other first responders who are going through challenging times.

In each of the five interactive and simulated role-play conversations, you will:

- Speak with fully animated and emotionally responsive virtual peers.
- Learn how to approach checking-in with peers you're concerned about, demonstrate compassion, help them problem-solve, and if necessary, connect them to additional help.
- Get pointers along the way and reflect on how you might have handled things differently.

These types of conversations are never easy. As with most high-intensity, low-frequency events, training for these difficult situations will develop your readiness for when it really counts.

SAY HELLO TO RECERT™

The new online continuing education solution that combines great courses and helpful recertification tracking tools in one affordable package

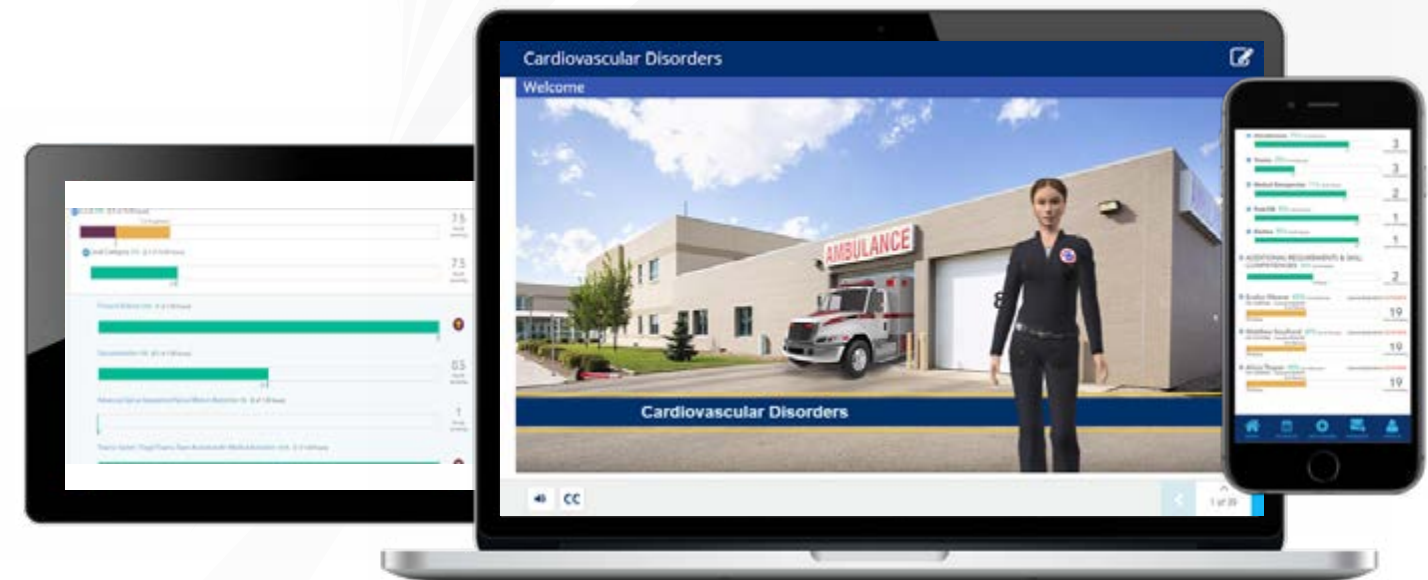

Discover more at www.recert.com

Recert is offered in partnership with:

RECERT IS DIFFERENT.

Recert, a new recertification solution from the Jones & Bartlett Learning Public Safety Group and National Association of Emergency Medical Technicians (NAEMT), allows you to move beyond average, uninspired online content with more than 200 up-to-date, evidence-based EMS and Fire courses. Recert covers every NCCP topic requirement with 100% CAPCE-approved content based on your favorite continuing education courses. Plus, Recert offers free tools to help employers and individuals track recertification progress and compliance.

PERFECT FOR EMPLOYERS.

Recert takes the hassle out of employee certifications and compliance with powerful reporting, scheduling, and tracking tools. The profile tool within Recert can be customized to track progress against national, state, or specific institutional requirements. Employers can easily assign more than 200 courses to groups or specific individuals, and custom course content may also be added and assigned.

WHAT MAKES RECERT GREAT?

- » Affordable, unlimited access to 200+ courses for only \$39.95–59.95/year
- » Complete coverage of every required NCCP topic
- » Recert EMS courses are approved by CAPCE
- » Evidence-based content aligns with current medical standards and guidelines
- » Every course is interactive, from live patient videos to critical-thinking scenarios
- » Custom content can be uploaded for delivery and tracking
- » Employers can assign courses or allow employees to manage their own courses
- » National, state, and customizable reporting, scheduling, and tracking tools available

WORLD-CLASS CONTENT. TIME-SAVING TRACKING TOOLS. GREAT PRICE.

Individual courses cost \$6.95 and unlimited annual access is available for only \$39.95–\$59.95 per individual. Discover effective and affordable continuing education today at www.recert.com.

Want to see how Recert can help you easily manage continuing education at your institution? Request free access or a personalized demo now at www.recert.com/employers.

EXCEPTIONAL CONTENT BUILT BY THE LEADERS IN THE FIELD.

Much of the core content on Recert is adapted from gold-standard education courses, videos, and learning materials created by these and other prestigious organizations.

RECERT OFFERS MORE THAN 200 EMS & FIRE CONTINUING EDUCATION COURSES!

Recert courses are available for fire service professionals and for both ALS and BLS level EMS providers. Recert offers a diverse course catalog that addresses the following subject areas:

- | | |
|----------------------------------|-------------------------------|
| » Airway & Ventilation | » Hazardous Materials |
| » Cardiovascular | » Medical |
| » EMS Operations | » Pharmacology |
| » Fire Apparatus Driver/Operator | » Preparatory (EMS) |
| » Fire Fighter | » Public Health |
| » Fire Inspector & Fire Marshal | » Shock and Resuscitation |
| » Fire Instructor | » Special Patient Populations |
| » Fire Investigator | » Technical Rescue |
| » Fire Officer | » Trauma |

Visit www.recert.com today to browse our course catalog, create your free professional profile, or request a free trial course!

For more than 30 years, **ACTION TRAINING SYSTEMS** (ATS) has created award-winning content by working with industry-leading experts to assure that content is engaging and promotes safety in real-life emergency scenarios. ATS content is thoroughly reviewed to ensure accurate coverage of National Fire Protection Association Standards and National Emergency Medical Services Education Standards. Action Training Systems DVDs are valuable tools for instructor-led classroom training, and make an ideal supplement to other Jones & Bartlett Learning Public Safety Group student and instructor resources.

**COMPLIMENT YOUR
TRAINING WITH
AWARD-WINNING
VIDEO CONTENT**

DID YOU KNOW?

First responders are 5 times more likely to experience PTSD and depression than civilians. In fact, more fire fighters and police officers have died from suicide than in the line of duty in recent years, yet little has been done to support this high-risk population.¹

The Public Safety Group, a global leader in EMS and Fire educational materials and services, has partnered with Kognito, a leader in evidence-based health simulations, to bring you **First Responder Support & Resilience**. This unique learning experience is centered on interactive simulations that enable students and experienced professionals to practice talking with other first responders who are going through challenging times.

In each of the five interactive and simulated role-play conversations, you will:

- Speak with fully animated and emotionally responsive virtual peers.
- Learn how to approach checking-in with peers you're concerned about, demonstrate compassion, help them problem-solve, and if necessary, connect them to additional help.
- Get pointers along the way and reflect on how you might have handled things differently.

These types of conversations are never easy. As with most high-intensity, low-frequency events, training for these difficult situations will develop your readiness for when it really counts.

go.psglearning.com/HazMat3E

A fire fighter’s ability to recognize an incident involving hazardous materials or weapons of mass destruction (WMD) is critical. They must possess the knowledge required to identify the presence of hazardous materials and WMD, and have an understanding of what their role is within the response plan. The *Third Edition of Hazardous Materials Awareness and Operations* will provide fire fighters and first responders with these skills and enable them to keep themselves and others safe while mitigating these potentially deadly incidents.
