SHAPING THE FUTURE OF ENERGY

Over its proud 54-year history, the Global Energy Show (previously known as the Global Petroleum Show) has served to unite the industry by bringing buyers and sellers, stakeholders and partners, CEOs and young professionals together to share knowledge and fuel innovation in the ever-changing energy landscape.

The discussion of energy is frequently associated with problems and polarization. However, at the Global Energy Show, conversation has consistently encompassed what the future of energy looks like, and solutions that come with cutting-edge technology and collaboration between like-minded energy advocates.

The International Energy Agency (IEA) highlighted three key conversations that are integral for ministers, CEOs and industry leaders to consider when incorporating new initiatives and strategies to move the energy dialogue forward.

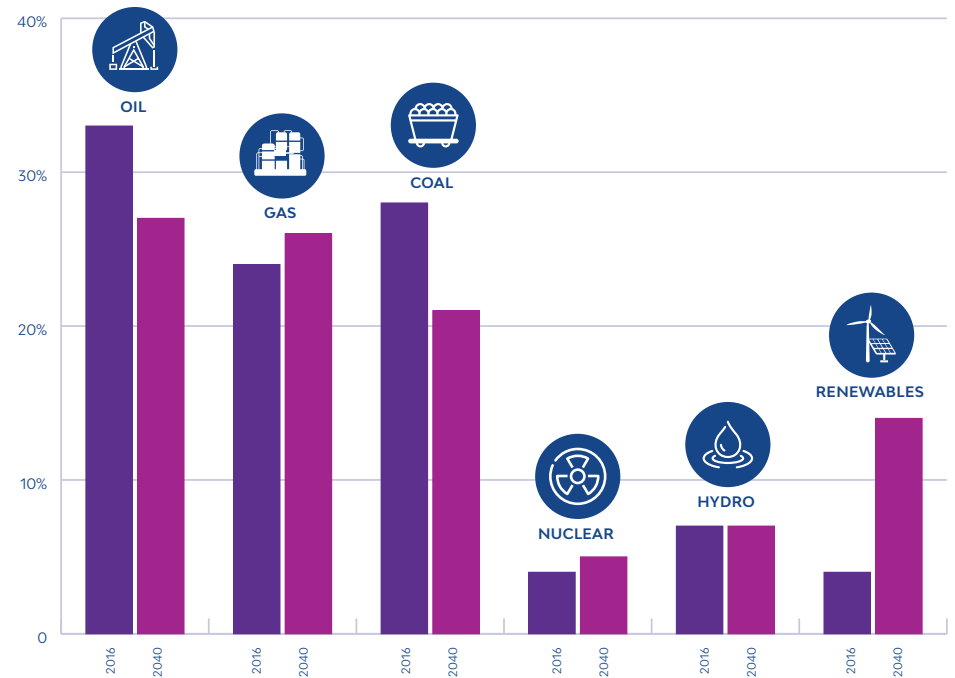

- The rising demand for services that energy provides due to a growing global population
- The recognition that oil and natural gas play critical roles in today's energy and economic systems
- The imperative to reduce energy-related emissions in line with international climate targets

Global population growth of 1.7 billion and rising standards of living in developing and newly industrialized nations will drive growing energy demand.

As the demand for higher sustainability and cleaner energy increases across the world, nations are coming together to take ownership of the global climate effort. With the anticipation that energy demand will increase by 1 per cent every year and targets have been set in the Paris Agreement, a fully complete energy mix is vital in moving business and collaboration forward in the coming years.

Leading pace with this transition of a diversified energy mix, the Global Petroleum Show changed its name to the Global Energy Show in February 2020. The name **Global Energy Show** reflects the industry's continued evolution, as the Show builds upon significant technological and sustainable achievements driven by oil and gas and moves to encompass alternative sources. As the third name-change in its 54-year history, the Global Energy Show is making this change to ensure we can continue to grow our relevance and position as the key platform where buyers and sellers, policy makers and leaders make decisions that shape the future of energy.

GROWTH IN ENERGY MIX FROM 2016-2040

Source: International Energy Agency (IEA) 2019 Stated Policies Scenario

CANADIAN OIL AND GAS SNAPSHOT - A MARKET ON THE RISE

Forecast \$2 Billion Increase in Upstream Investment in 2020

Capital spending in the oil and natural gas industry is expected to be about \$2 billion higher in 2020 compared to last year. This represents a four per cent increase in capital investment in the conventional side, and an eight per cent increase in the oil sands, according to the Canadian Association of Petroleum Producers (CAPP).

Conventional oil and natural gas capital investment for 2020 is forecast at **\$25.4 billion**, up from an estimated \$24.4 billion last year.

Capital investment in the oil sands is forecast at **\$11.6 billion in 2020**, up from an estimated \$10.7 billion in 2019. This marks the first time in five years that oil sands capital spending is expected to experience an upswing.

Overall for the oil and natural gas sector, total capital investment this year is forecast at \$37 billion, up from an estimated \$35.1 billion in 2019, for a combined increase of six per cent in 2020.

Pipelines Moving Forward:

With the Line 3 project scheduled to come on stream in late 2020, the Trans Mountain Expansion underway, and pre-construction activities ongoing for Keystone XL, there is potential for medium and long-term production growth with access to global markets and expanded transport capacity into the United States. **source CAPP Feb 2020*

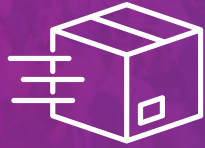

World energy demand is forecasted to increase by **24% by 2040**. As a global leader, Canada provides environmentally and socially responsible products to help meet the growing energy needs and help displace fuels from less-responsively produced sources.

NORTH AMERICA'S ONLY EXHIBITION FEATURING THE COMPLETE ENERGY VALUE CHAIN

DOWNSTREAM

POWER GENERATION & UTILITIES

RENEWABLES

WHO SHOULD EXHIBIT?

Government Leaders

National Oil Companies

International Oil Companies

Financers & Investors

Gas and LNG Companies

Integrated Energy Companies

Clean Technology Companies

Power Generation & Utilities

Transmission & Distribution

Refineries & Maintenance

Technologies Providers

Legal & Industry Analysts

Global demand for natural gas is expected to increase by 36% by 2040.

Supplying **25%** of total energy consumed worldwide, and global demand for oil will increase by **9%**, supplying **28%** of total energy consumed.

By 2040 total oil demand will increase by 9%.

While use of oil for transportation will peak, growth in petrochemicals means more oil will be needed in the future.

WHY EXHIBIT AT THE GLOBAL ENERGY SHOW?

The Global Energy Show is the ideal platform for companies from across the entire energy landscape to showcase their expertise and services to investors and buyers looking to do business in the North American market.

With **53,000+** industry professionals expected to attend over three days of industry innovation, knowledge exchange and networking, the exhibition provides companies the unique opportunity to maximize brand exposure to the right audience.

1. Showcase your products, services and solutions

Exhibiting at the Global Energy Show allows exhibitors the opportunity to sell their products, services and solutions to industry buyers and decision makers.

2. Reach your target audience

With 9/10 attendees are a key influencer, decision maker or purchaser. Exhibiting at the Global Energy Show delivers real business opportunities.

3. Enhance brand recognition

The Global Energy Show brings a unique opportunity to differentiate your brand from the competition and create a lasting impression on current and potential customers.

4. Solidify your business network

The Global Energy Show draws professionals with strong buying power and gives exhibitors the opportunity to meet with existing connections and potential leads involved in the energy mix.

5. Access new markets

Connect with primary stakeholders from upcoming regions developing project plans, budget allocations, timelines and tap into opportunities to win contracts.

6. Get instant feedback

Engage with your target audience in a short timeframe, explore new ideas, gain first-hand product feedback and understand the trends shaping the future of energy.

NORTH AMERICA'S LEADING BUSINESS PLATFORM ATTRACTING 53,000+ VISITORS FROM ACROSS THE WORLD

As North America's Leading Energy Event, the Global Energy Show is the ideal meeting place for global leaders from around the world to convene and conduct millions of dollars in business.

The Global Energy Show will attract 53,000+ industry professionals from the entire energy mix of oil, gas, LNG, power generation and renewables, placing the event at the heart of international business for the energy sector.

REASONS WHY VISITORS ATTEND THE GLOBAL ENERGY SHOW

- Meet new suppliers
- Stay up-to-date with market trends
- Identify emerging markets for new opportunities
- Source new products and technologies
- Network with key industry stakeholders

FROM 110+ PARTICIPATING COUNTRIES INCLUDING:

SPONSORSHIP OPPORTUNITIES OVERVIEW

Sponsorship increases the show experience through multiple channels including exhibition, conferences, and special features. The Global Energy Show provides the ideal platform to showcase your brand to the international energy sector. Several opportunities are available to help you achieve your specific objectives and enhance your outreach at the show.

BENEFITS OF SPONSORING INCLUDE:

Increase brand awareness to an international audience within the energy sector

Drive attendees to your company's booth for qualified leads

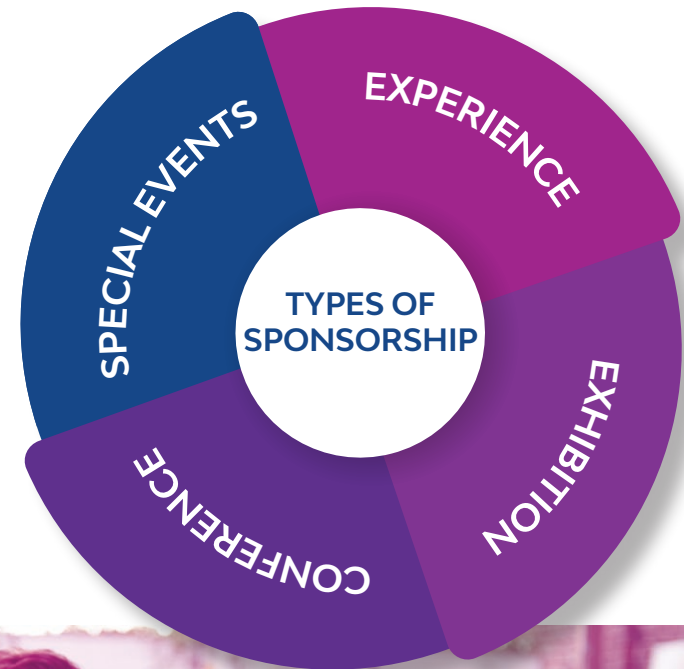

Network with decision makers and influential purchasers

Be associated with Global Energy Show's **international public relations & marketing campaign**

Regardless of your budget, we have an opportunity that will fulfill your requirements. Choose from specific opportunities in sponsorship, starting at \$5000, or advertising, starting at \$750.

In addition to the specific experience you're enhancing, sponsorships will have added benefits. See the chart for all the perks at each level.

ZONES & PAVILIONS

GLOBAL ENERGY DIGITAL

The Digital Transformation Zone features the latest developments across the energy sector. This dedicated zone provides key insights into how disruptive technologies are transforming business models with the use of artificial intelligence, blockchain, robotics, machine learning, real-time data analytics and cloud computing.

GLOBAL ENERGY OUTDOORS

The Outdoor Zone is the ideal location to activate in a high-impact and high-traffic area. This dedicated zone allows exhibitors to show their impressive equipment and take advantage of additional space. Have an idea for an out-of-the box booth design? Make it into reality in the Outdoor Zone.

The Pitch-to-Pilot Competition is a new feature that will run every day during the Show on the exhibition floor. Each participating company will pitch their project to major sponsors, and will also have an exhibition space to showcase their technology to attendees.

PRESENTED BY

GLOBAL ENERGY PIPELINE ALLEY

As the volume increases on the urgency to address bottlenecks impacting the Canadian oil and gas industry, **this dedicated zone presses the issue to elevate support of this vital component of national infrastructure** and get the industry moving forward once again. Pipeline Alley presents the ideal platform to amplify this message into the broader marketplace and help drive support for key projects.

GLOBAL MEETINGS PROGRAM

The Global Meetings Program at Global Energy Show is **a proactive, pre-show platform** enabling confirmed exhibitors, delegates, speaker and pre-registered visitors to view profiles of participants and set up meetings prior to and during the Global Energy Show.

INTERNATIONAL PAVILIONS

GLOBAL ENERGY SHOW CONFERENCES

The Global Energy Show offers **two distinct conferences covering strategic and technical topics** where **170+ industry-leading experts** share their knowledge and understanding across the event's expansive line-up of conference sessions.

The Global Energy Investment Forum is a unique platform to connect investors with energy companies that are leaders in the sector and poised to deliver strong returns into the next decade. Held on the main stage featuring keynotes and panels, delegates will learn about changes in policy and future outlooks, hear from company executives on their unique strategies and see where the market is headed.

The Global Energy Show is the premier international meeting place for the industry to introduce new technologies, share ideas, meet new prospects, and do business together. The show also provides a platform for all industry players to develop strategies for oil and gas, renewables, and introduce new energy sources not yet discovered.

GLOBAL ENERGY STRATEGY

STRATEGIC CONFERENCE

CHANGING THE CHANNEL: THE FUTURE OF SUSTAINABLE HYDROCARBONS

Increasingly, thoughtful leaders from industry, government and public affairs understand the world needs a different course for the future of energy and the economy than the one it is on.

Common sense dictates that an accelerated replacement and retirement of fossil fuels using the current toolbox of renewable energy alternatives will create unintended consequences for billions of people, leading to disruption as severe as the problems this is intended to solve. The consensus and cooperation needed to effectively address this global challenge is impossible with existing technology.

Carbon resource industries now fully understand that business as usual is not a viable option, and that they must adapt their plans, strategies and investments towards significantly reducing their carbon footprint to ensure economic and environmental sustainability. As the world changes, fossil fuel industries must change with it.

The emotional and polarized debate on climate change is driving all sides to unworkable solutions and an uncertain future. Now is the time for the development of a third path, a practical compromise solution that accommodates the needs and aspirations of all stakeholders.

The Strategic Conference provides the platform for leaders to gather, discuss and understand where the world is at, where it needs to go, and how to get there.

PAST FEATURED STRATEGIC CONFERENCE SPEAKERS

Hon. Jason Kenney
Premier of Alberta

Hon. Scott Moe
Premier of Saskatchewan

Tim Gould
Head of Division, Energy Supply and Investment Outlooks, International Energy Agency

Alex Pourbaix
President & CEO, Cenovus Energy

Joy Romero
Vice President, Technology & Innovation, Canadian Natural Resources Ltd.

Brett Wilson
Father, Entrepreneur & Philanthropist

Susan Riddell Rose
President & CEO, Perpetual Energy Inc.

Michael Rose
President & CEO, Tourmaline Oil

Anthony Marino
President & CEO, Vermilion Energy

Alfred Sorensen
President & CEO, Pieridae Energy

Darren Gee
President & CEO, Peyto Exploration & Development Corp.

Roger Dall'Antonia
Vice President, CEO, FortisBC Inc. and FortisBC Energy Inc

Nicole Deyell
Vice President, Development & Unconventional Centre of Excellence, PETRONAS Canada

Michael Binnion
President & CEO, Quester Energy

David Chappell
Senior Vice President, Petrochemical Development, Inter Pipeline

Céline Gerson
President, Schlumberger Canada

Stefan Vos de Wael
General Manager Commercial, Shell Canada Integrated Gas

Delbert Wapass
Executive Chairman, Project Reconciliation

Melissa Simpson
Deputy Assistant Secretary, Bureau of Energy Resources, US Department of State

Hon. John Peter Amewu
Minister of Energy, Republic of Ghana

Proscovia Nabbanja
Chief Operations Officer - Upstream, Uganda National Oil Company

Qazi Mohammad Saleem Siddiqui
Director General Petroleum Concessions, Ministry of Energy (Petroleum Division), Government of Pakistan

Dr. V.P. Joy
Director General, of the Directorate General of Hydrocarbons (DGH), India

Luis Miguell Morelli Navia
President, National Hydrocarbon Agency (ANH) Colombia

Hon. Sonya Savage
Energy Minister, Alberta

Hon. Tanya Fir
Economic Development, Trade & Tourism Minister, Alberta

Hon. Bronwyn Eyre
Minister of Energy & Resources, Saskatchewan

Hon. Greg Rickford
Minister of Energy, Northern Development and Mines and Minister of Indigenous Affairs of Ontario

Gary Mar
President & CEO, Petroleum Services Association of Canada (PSAC)

Tim McMillan
President & CEO, Canadian Association of Petroleum Producers (CAAP)

Bryan Cox
President and CEO, BC LNG Alliance

Stephen Buffalo
President and CEO, Indian Resource Council of Canada

Chris Bloomer
President and CEO, Canadian Energy Pipeline Association (CEPA)

Jason Sharpe
SVP & GM, Natural Gas Transmission & Distribution, Pipelines & Liquids Global Business Unit, ATCO

Alex Yashkevich
Head of Portfolio - Oil, Gas & Petrochemical, Siemens

Dariusz Piotrowski
Global Cognitive Solutions Development Leader, Natural Resources Industries, IBM

Danielle Smith
GPS Emcee, Host of the Danielle Smith show

GLOBAL ENERGYINGENUITY

TECHNICAL CONFERENCE

The Global Energy Show Technical Conference brings together technical energy professionals from around the world to present and discuss the latest technologies, processes and innovations. Delegates will have **an opportunity to meet key international companies** – technical and project influencers from the Middle East, North and South America, Europe, Africa, Asia and Australia.

Hear from **over 100 speakers** providing you with access to a wealth of critical industry-leading knowledge. Speakers are selected based on a peer-review by the Global Energy Show Technical Committee and represent the top technical and project-based influencers from around the world.

54 TECHNICAL PRESENTATIONS COVERING 10 CATEGORIES:

ALTERNATIVE ENERGY

DRILLING & COMPLETION

ENHANCED OIL RECOVERY (EOR)

ENVIRONMENTAL MANAGEMENT

FIELD DEVELOPMENT & INFRASTRUCTURE

HEALTH & SAFETY

PEOPLE & TALENT

PIPELINE & PROCESSING FACILITIES

POST-PRODUCTION

RESERVOIR ENGINEERING

4 PANEL SESSION TOPICS INCLUDE:

- Artificial Intelligence Implementation
- ESG in Alignment with Regulations
- Innovation and Disruptive Technology
- Monetization of Assets

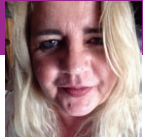

30+ POSTER PRESENTATIONS

Technical posters covering a wide range of topics in the energy industry will be presented on the exhibition floor during specific scheduled times throughout the three days.

FEATURED PROGRAMS

GLOBAL ENERGY LEADERSHIP SUMMIT

**GLOBAL ENERGY CEO AND MINISTERIAL SUMMIT
JUNE 9-11, 2020**

This invite-only program hosts heads of state, international and regional energy, trade and economic development ministers, investors and industry executives to participate in closed door meetings to discuss investment opportunities and trade.

The CEO and Ministerial Summit takes place at Global Energy Show, in coordination with the Strategic Conference and Global Energy Investment Forum.

globalenergyshow.com/leadership

GLOBAL ENERGY XTL SUMMIT

**GLOBAL ENERGY XTL SUMMIT
JUNE 9-11, 2020**

The global energy system faces a dual challenge: the need for more energy and less carbon. Join us in having the conversation to find a proven path to optimizing and creating greater value from natural gas reserves. Global Energy XTL Summit is looking to move the energy industry forward by establishing a platform for information sharing, technology demonstration and an opportunity to find a way to lower the carbon footprint in the industry while driving the demand for all the energy products.

The Global XTL Summit will be hosted as part of the Global Energy Show and participants will join the initial keynote sessions after which dedicated Global XTL Summit sessions will follow.

globalenergyshow.com/xtl

GLOBAL ENERGY INVESTMENT

**GLOBAL ENERGY INVESTMENT FORUM
JUNE 11, 2020**

The Global Energy Investment Forum is a unique platform to connect investors with energy companies that are leaders in the sector and poised to deliver strong returns into the next decade. On the main stage featuring keynotes and panels, hundreds of delegates will learn about changes in policy and future outlooks, hear from company executives on their unique strategies and see where the market is headed.

globalenergyshow.com/investment

GLOBAL ENERGY MARKETS

**GLOBAL ENERGY MARKETS
JUNE 9-11, 2020**

Previously known as Global Market Seminar Series, Global Energy Markets is the perfect platform for companies to see major opportunities in countries around the world and to connect with the key people and organizations that make things happen in these areas.

Presented in partnership with the Canadian Global Exploration Forum (CGEF), Global Energy Markets will provide insights on regions of international interest. It also includes market overviews, E&P investment opportunities, related service and supply opportunities and examples of how Canadian companies have successfully entered these international markets.

PRESENTED BY

GLOBAL ENERGY CLUB

GLOBAL ENERGY CLUB
JUNE 9-11, 2020

Welcome to the exclusive VIP program for the Global Energy Show. Previously known as Global Petroleum Club, members will enjoy access to a private and secure venue to connect with other members and conduct meetings while on site at the Global Energy Show. In addition, participants are welcomed into executive advisory discussions and networking events taking place throughout the year.

The Global Energy Club is committed to strict membership criteria, which only allows access to the most senior leaders and influential individuals in the industry.

globalenergyshow.com/VIP

GLOBAL ENERGY NEXT GEN

GLOBAL ENERGY NEXT GEN
JUNE 9-11, 2020

To inspire the industry's future leaders, local top performing students between the ages of 12-17 with an interest in STEM will be invited to participate in a one-of-a-kind afternoon program where they will meet with industry experts to learn how the newest technological advancements are influencing the industry and how a future career in the industry can contribute to Canada's future global leadership position.

Taking place at the Global Energy Show, June 9- 11, Global Energy Next Gen is a next generation program with a mission to educate them on the reality of the energy sector.

globalenergyshow.com/nextgen

GLOBAL ENERGY SHOW SPECIAL EVENTS

GLOBAL ENERGY AWARDS

GLOBAL ENERGY AWARDS GALA JUNE 9, 2020

The leaders, the innovators and the collaborators who are disrupting the energy industry all together in one special night.

The Global Energy Show Awards (previously the GPS Awards) is an evening of celebration and networking, and serves to celebrate the leaders who drive change, shine a spotlight on excellence, and promote healthy advancement within our industry.

globalenergyshow.com/awards

GLOBAL ENERGY AFTER PARTY JUNE 10, 2020

The Global Energy After Party is the perfect place to unwind and network with colleagues and clients. Attend the premier networking event of Global Energy Show in a casual setting, enjoying prime entertainment, great food, drinks and great company.

WORKSHOPS

Develop your skills in one of two full-day workshops leading up to Global Energy Show. Our workshops enable you to learn new skills, find new ways of thinking and get feedback from leading experts in the industry.

WORKSHOP 1: ARTIFICIAL INTELLIGENCE WITH TERRAHUB

Date: Monday, June 8, 2020

Time: 9am - 5pm

Location: Hyatt Regency (700 Centre St SE) Calgary, Canada

WORKSHOP 2: PIPELINE INTEGRITY MANAGEMENT

Date: Monday, June 8, 2020

Time: 9am - 5pm

Location: Hyatt Regency (700 Centre St SE) Calgary, Canada

globalenergyshow.com/special-features/workshops-tours/

SITE TOURS

Available to Strategic and Technical Conference delegates, these exclusive tours will give you a behind-the-scenes look at the Canadian oil and gas industry. With your choice of half-day or full-day tours, supplement your energy knowledge of Canada's energy history and ingenuity.

SITE TOUR 1: TURNER VALLEY EXPERIENCE

Date: Monday, June 8, 2020

Time: 9am - 5pm

Meeting Point: Hyatt Regency (700 Centre St SE) Calgary, Canada

SITE TOUR 2: SHEPARD ENERGY CENTRE TOUR

Date: Monday, June 8, 2020

Time: 1pm - 4pm

Meeting Point: Hyatt Regency (700 Centre St SE) Calgary, Canada
