Enabling Technologies a Top Finalist in Microsoft Unified Communications Solutions, Messaging

Glen Arm, MD, USA— June 24, 2009— Today, **Enabling Technologies** announced it has been selected as a 2009 Microsoft Worldwide Partner Conference Awards finalist in **Unified Communications Solutions, Messaging**. The Unified Communications Solutions, Messaging Partner of the Year award recognizes partners with proven expertise in responding to the challenges of providing secure, reliable, anytime, anywhere access to e-mail.

"Three years ago we recognized that we needed to change our business. We believed that Microsoft Unified Communications would be synergistic with the heritage of Enabling. These awards are a culmination of that effort and we are truly honored." says Bill Vollerthum, President Enabling Technologies.

Enabling Technologies has been providing end-to-end messaging consulting and implementations since 1998 when the first Unified Messaging applications were introduced. Since that time we have performed over 700 UM implementations. The single most important differentiator between Enabling Technologies and other Microsoft Gold partners specializing in Unified Communications is our Telephony experience. We have experience integrating to all types of Telephony platforms (Cisco, Avaya, Nortel, Siemens, Mitel, ShoreTel, Altigen). Enabling is one of the few integrators truly providing an end-to-end solution.

"Partners are the key to igniting business innovation through great technology as well as helping customer drive down costs," said Allison L. Watson, Corporate Vice President, Worldwide Partner Group, Microsoft Corp. "Congratulations to the 2009 WPC Award finalists who have demonstrated a superior level of expertise as well as a focus on delivering customer value. We look forward to seeing these partners fulfill their limitless potential as they continue to provide customers with world-class Microsoft solutions."

Awards will be presented in a number of categories, with winners chosen from a pool of nearly 2,000 entrants worldwide. Partners submitting for this award must have delivered innovative solutions to help clients with secure, stable, and collaborative messaging capabilities. To be eligible for this award, you must:
- Be active in the Unified Communications Solutions, Messaging specialization.
- First profile your nominated solutions in Partner Solution Profiler.

The Microsoft Worldwide Partner Conference Awards recognize Microsoft partners that have developed and delivered exceptional Microsoft-based solutions over the past year.

About Enabling Technologies Corp.

Enabling Technologies is a global IT consulting practice specializing in Unified Communications, Enterprise Messaging, IM Presence, Security and Compliancy applications. Whether your challenge is receiving and responding to important messages on the road, implementing a unified and collaborative messaging architecture, complying with regulatory and SOX requirements for electronic discovery, or eliminating spam and intellectual property leakage - Our team of engineers with years of experience in messaging technology can work with you to solve your most challenging communication requirements.
