

GSA Schedule 70 Capabilities Statement

Why Enabling Technologies Corp.?

- Microsoft #1 Intelligent Communications Partner 2018 also Microsoft Unified Communication (UC) partner of the Year 2009, 2010, 2012 and 2015
- When you work with ETC, you can always expect a predictable successful outcome.
- Focused and Experienced - We've done more UC deployments than anyone on the Planet
- We've implemented successful UC strategies for companies like General Dynamics, BNSF Railways & Kenneth Cole – we can help you too!

Company Background

Back in 1992 we recognized the scarcity of truly focused Systems integrators in the Unified Communications arena. Many things have changed since then but the need for expert integration services remains. For the past 27 years, Enabling Technologies Corp has focused our consulting practice on Secure, Communication and Collaboration solutions. We are Microsoft's #1 Intelligent Communications partner year after year and have designed, secured, implemented, migrated and supported over 1700 Office 365, Skype for Business/Teams, and SharePoint projects. We are now offering Cloud Security Planning, Migration and Support Managed Services as well.

Example Clients:

Skype apps - Office 365 - Azure - UC Managed Services

TESTIMONIALS - "Every person in the organization is focused on customer service and exceeding expectations. Beginning my second implementation with them and I know it will be successful." - Tim Carlson, Combe

"The people are amazing to work with. Exceptionally knowledgeable and genuinely good people. The "Enabling Experience" continues from project conception, through implementation and carries over into ongoing support. By far the best technology partner I have the pleasure of working with." - James Thompson, The Arstet
