

# Microsoft Teams

## Planning and Design 3 Day Engagement

Enabling Technologies has extensive experience in driving value realization from Microsoft's teamwork solutions. Our experience with Office 365 including Microsoft Teams, SharePoint, Yammer, and Stream will help you build a culture of collaboration that empowers your employees while adhering to the growing security and compliance requirements. As your partner we provide guidance and insights you can use to help your employees drive adoption and make the best use of Microsoft Teams within your organization.
