

## Microsoft Teams Learn From Home Quickstart

Expediting the move to Microsoft Teams for online learning creates growing pains like too many students creating background noise, faculty unable to troubleshoot issues, and an inability to monitor engagement.

### Microsoft Teams Quickstart for Educators

Enabling Technologies will develop and implement an onboarding and training plan, complete with instructor-led and recorded training, quick reference guides, and ad-hoc Q&A. We will increase user satisfaction and reduce help desk tickets.

## TEAMS MADE EASY

**“Teams is a way for students to interact, gather information, and share it right when they need it. I think Teams really embodies the way this generation uses technology.”**

*Amy Welsh, Chair of the Mathematics Department at the Davidson Academy*

### Microsoft Teams For Learning

Enabling Technologies, Microsoft's four-time Partner of the Year Award recipient, provides hands-on advice, training, and customized content on using Microsoft Teams for learning.

#### Enabling Faculty

- Teams Collaboration & Meeting Training
