

Istation Early Math (pre-K – 1st grade)

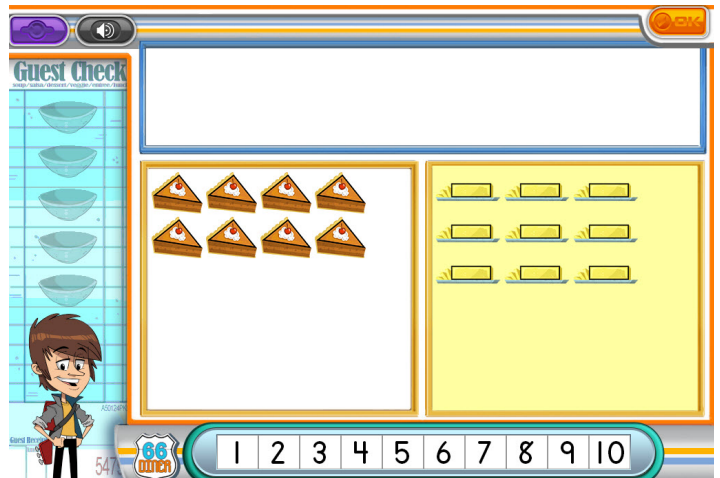

March 2018 Release Updates

The Math Superstars continue their concert tour and make a stop at a roadside fruit and vegetable stand to compare the length and weight of different fruits and veggies. Further down the road, the Superstars classify and count items on the menu when they stop to grab a bite at a diner. Additionally, they work with the coins in Angel's coin purse.

Newly released	Content
2 measurement lessons	Students will compare the length and weight of objects to determine which item is longer or shorter, lighter or heavier. Students will identify coins by name and value.
1 algebra lesson	Students will classify items and answer questions about the number in each category.
2 geometry lessons	Students will compare the similarities and differences of two-dimensional shapes' attributes. Students will identify three-dimensional shapes based on attributes.

Istation Math (grades 2-5)

March 2018 Release Updates

In Istation Math, Secret Equation Man will face Miss Match and her army of ants as students use data in picture graphs and bar graphs to solve problems. Students will also use the order of operations to evaluate expressions and unscramble villain profiles.

Newly released

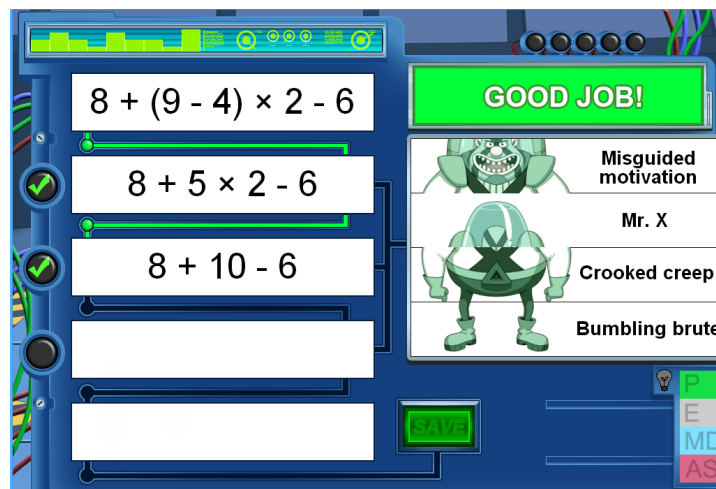

Content

1 algebra lesson

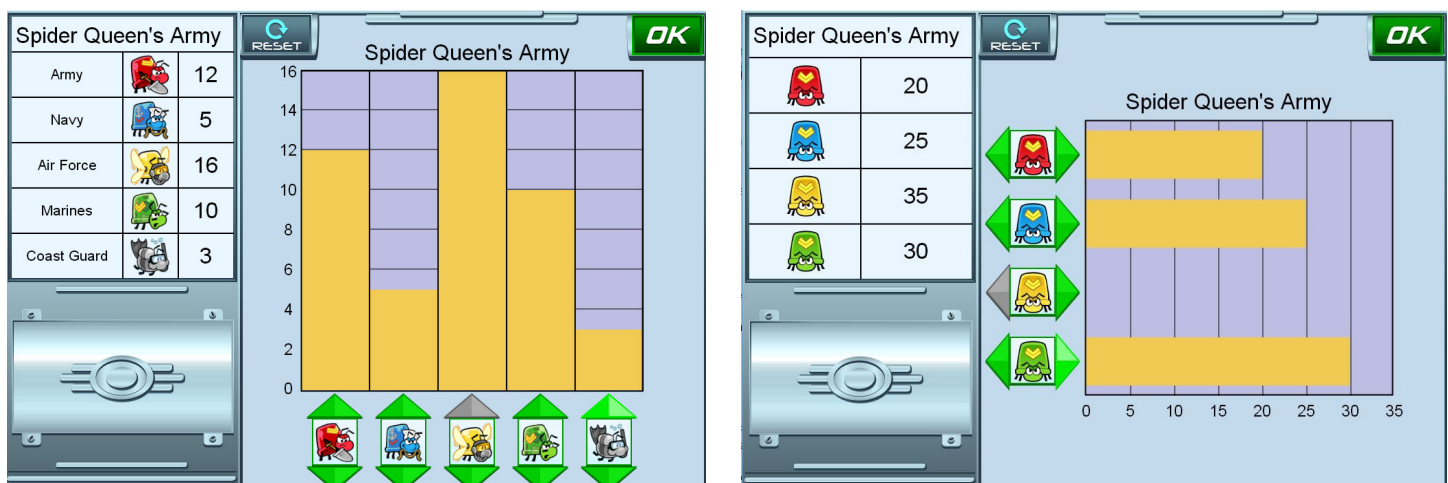

Students will evaluate expressions with parentheses using the order of operations.

3 data analysis lessons

Students will create and analyze bar and picture graphs with intervals greater than one. Then they will solve two-step word problems.
