Strategic Alliance between Ronacher McKenzie Geoscience and Condor Consulting

Vancouver, British Columbia, Canada (January 27, 2019) – **Ronacher McKenzie Geoscience Inc** and **Condor Consulting Inc.** are pleased to announce a strategic alliance to strengthen both organizations' capabilities in offering premium consulting services to the mineral exploration industry. With an increasing demand for comprehensive and integrated consulting and field services in the geosciences, the experience and knowledge provided in this new collaboration will be beneficial to both junior and major mining companies. Improving the tools and methods including the seamless integration of geology and geophysics to assist clients in discovering and developing the next generation of mineral deposits are key objectives of this alliance.

About Ronacher McKenzie Geoscience Inc

Ronacher McKenzie Geoscience Inc is an international consulting firm geological and geophysical services for the mineral exploration industry with offices in Toronto and Sudbury, Canada. With a strong knowledge base and an integrated 3D approach to geoscience data, the company assists in better assessment and targeting for their clients.
