**Friday, 15 February 2019:** The Board of NAOS Ex-50 Opportunities Company Limited (ASX: NAC) (Company) is pleased to announce that it has declared a fully franked quarterly dividend of 1.35 cents for the three month period ending 31 December 2018, bringing the FY19 dividend to date to 2.70 cents per share. The Company also today announced its half year result for the six month period to 31 December 2018, reporting an after-tax loss of \$3.13 million.

### Performance

For the half year ended 31 December 2018, the NAC investment portfolio produced a negative return of -8.56%, bringing the inception return over the past 4 years and 1 months to +52.89% in nominal terms\*, vs. the benchmark S&P/ASX 300 Industrials Accumulation Index (XKIAI) which has returned +22.97%.

NAOS Chief Investment Officer and Managing Director Sebastian Evans stated:

*'Clearly the first six months of the financial year proved to be a challenging period for the NAC Investment Portfolio, and 2018 was unfortunately the first calendar year that has produced a negative return since NAC's inception. It is imperative that we continue to adhere to the same investment philosophy that has delivered significant outperformance over the longer term. This entails a high conviction investment approach both on the long and short side with a core focus on investing in industrial type businesses. We will continue to play to our strengths with a portfolio that should remain nimble where opportunities arise to realise profits, whilst protecting our fellow shareholders capital in an equity market that has continued to increase in volatility over the past 12 months.'*

The Company remains focused on protecting investor capital whilst providing long-term capital growth above the relative benchmark index. Since inception the investment portfolio has outperformed its benchmark by +5.69% p.a.\* with lower volatility than that of the wider market.

### Fully Franked Dividends

Total dividends since inception now total 19.70 cents per share fully franked, and Independent Chairman David Rickards commented *'a move to quarterly dividends in FY19 brought forward income for shareholders and offered a more frequent income stream, it is the Board's aim to continue to be mindful of providing shareholders with a sustainable stream of growing fully franked dividends.'*

\* Investment Portfolio Performance is post all operating expenses, before fees, taxes and initial IPO and placement commissions. Performance has not been grossed up for franking credits received by shareholders. Since inception (p.a. and nom.) includes part performance for the month of November 2014. Returns compounded for periods greater than 12 months.
